Hats Nov 17 2021 Although a hat may be designed for the purpose of practicality or aesthetics, it is part of a complex interplay of wider cultural meanings. Throughout history hats have played a significant role in expressing and revealing notions of class, gender, authority, fashion and etiquette. By examining the consumption and production of hats from the 18th century to the present day, this book explores their significance as markers of social and cultural change. Taking a thematic approach, Clair Hughes charts how headgear during the modern era has been shaped by status, gender and necessity. Using case studies such as the bowler hat, which has moved up and down classes and professions, Hughes reveals that although a hat might seem bound to its status and context, it is as susceptible to subversion and reinvention as the society which creates it. From the transition of pilots' helmets from practical headgear to fashion items, to the Slouch hat and the baseball cap, hats have responded to cultural or political movements, often becoming conscious displays of identity and social allegiance. Drawing from material and historical research as well as depictions in art, literature and film, Hughes provides a fascinating

insight into hats as a visible performance of social values and culture.

See You in the Cosmos Feb 26 2020 "I haven't read anything that has moved me this much since *Wonder*." —Jennifer Niven, author of *All the Bright Places* A space-obsessed boy and his dog, Carl Sagan, take a journey toward family, love, hope, and awe in this funny and moving novel for fans of *Counting by 7s*, *Walk Two Moons*, and *The Curious Incident of the Dog in the Night-Time*. 11-year-old Alex Petroski loves space and rockets, his mom, his brother, and his dog Carl Sagan—named for his hero, the real-life astronomer. All he wants is to launch his golden iPod into space the way Carl Sagan (the man, not the dog) launched his Golden Record on the Voyager spacecraft in 1977. From Colorado to New Mexico, Las Vegas to L.A., Alex records a journey on his iPod to show other lifeforms what life on earth, his earth, is like. But his destination keeps changing. And the funny, lost, remarkable people he meets along the way can only partially prepare him for the secrets he'll uncover—from the truth about his long-dead dad to the fact that, for a kid with a troubled mom and a mostly not-around brother, he has way more family than he ever knew. Jack Cheng's debut is full of joy, optimism, determination, and unbelievable heart. To read the first page is to fall in love with Alex and his view of our big, beautiful, complicated world. To read the last is to know he and his story will stay with you a long, long time. "Stellar."

Sloppy Craft Jan 19 2022 *Sloppy Craft: Postdisciplinarity and the Crafts* brings together leading international artists and critics to explore the possibilities and limitations of the idea of 'sloppy craft' - craft that is messy or unfinished looking in its execution or appearance, or both. The contributors address 'sloppiness' in contemporary art and craft practices including painting, weaving, sewing and ceramics, consider the importance of traditional concepts of skill, and the implications of sloppiness for a new 21st century emphasis on inter- and postdisciplinarity, as well as for activist, performance, queer and Aboriginal practices. In addition to critical essays, the book includes a 'conversation' section in which contemporary artists and practitioners discuss challenges and opportunities of 'sloppy craft' in their practice and teaching, and an afterword by Glenn Adamson.
