Lives Matter at School week of action, Denisha Jones, contacted Jesse Hagopian to propose that they collect these stories in a book. Black Lives Matter at School succinctly generalizes lessons from successful challenges to institutional racism that have been won through the BLM at School movement. This is a book that can inspire many hundreds or thousands of more educators to join the BLM at School movement.

EMERGENCY RESPONSE AND EMERGENCY

MANAGEMENT LAW Sep 18 2021 This second edition is a major revision and update of Emergency Response and Emergency Management Law. As the first text to be published on emergency response and emergency management law this book provides an understanding of the legal challenges faced on a daily basis by the front-line troops in emergent situations. The emergency response law section begins with the duty to respond and proceeds through the wide range of legal issues that arise during response. Training accidents, vehicle issues, dispatch, emergency medical services issues, and "Good Samaritan" acts are covered. Additional topics include the standard operating procedures, mutual aid, the incident management system, hazardous materials incidents, OSHA, using volunteer resources, recovery by responders, the rescue doctrine, and the World Trade Center site litigation. The emergency management law section examines the powers of governors, state and local responsibilities, federal emergency management, difficulties in mitigating legal exposure, legal steps for mitigation, potential negligence liability, legal requirements and interpreting/translating assistance, preparedness cases, recovery cases, and the role of the local government attorney before, during, and in the aftermath of a disaster. The Federal

the National Response Framework (NRF) are discussed in great detail. The third section discusses the ethical imperative, homeland security expenditures, policy and legal changes, wars in Iraq and Afghanistan, and the war veterans. At the end of each chapter, questions and problems refer back to the text. These resources highlight the principal issues and serve as a valuable teaching tool for the instructor. This text provides a firm base of legal knowledge for emergency responders, emergency management professionals, and their attorneys.
