The Reformation Unsettled Sep 08 2020 Recent historical studies have emphasized that the English Reformation can no longer be seen as an inevitable response to abuses within the late-medieval Western ('Catholic') Church. Contrary to Protestant stereotypes, the late-medieval Church catered to the spiritual needs of its members. In addition, the English Reformation was an incomplete process and, even after the Elizabethan Settlement of 1559, English religious culture was full of continuities with the past, with pre-Reformation religious culture only partially displaced. This essay collection investigates how the literature of the first century after the Elizabethan Settlement dealt with this cultural ambivalence. Focusing on a mixture of canonical texts and less well-known ones, the contributors show that the religious hybridity of early-modern England is found in a concentrated form in the literary texts of the period. In contrast to theologians, literary writers were not obliged to choose sides. Literary discourse could confront incompatible doctrinal perspectives within a single text, or forge a hybrid spiritual sensibility out of the competing religious traditions. Literature, sometimes in spite of writers' avowed denominational allegiances, embraced, explored and deepened the ambivalence of early modern English religious culture in a manner unavailable in other kinds of texts.

God's Fury, England's Fire Apr 15 2021 The sequence of civil wars that ripped England apart in the 17th century was the single most traumatic event between the medieval Black Death and the two world wars. Braddick gives the reader a sense both of what it was like to live through events of uncontrollable violence and what really animated the different sides.

Beliefs and the Dead in Reformation England Oct 29 2019 This is the first comprehensive study of one of the most important aspects of the Reformation in England: its impact on the status of the dead. Protestant reformers insisted vehemently that between heaven and hell there was no 'middle place' of purgatory where the souls of the departed could be assisted by the prayers of those still living on earth. This was no remote theological proposition, but a revolutionary doctrine affecting the lives of all sixteenth-century English people, and the ways in which their Church and society were organized. This book illuminates the (sometimes ambivalent) attitudes towards the dead to be discerned in pre-Reformation religious culture, and traces (up to about 1630) the uncertain progress of the 'reformation of the dead' attempted by Protestant authorities, as they sought both to stamp out traditional rituals and to provide the replacements acceptable in an increasingly fragmented religious world. It also provides detailed surveys of Protestant perceptions of the afterlife, of the cultural meanings of the appearance of ghosts, and of the patterns of commemoration and memory which became characteristic of post-Reformation England. Together these topics constitute an important case-study in the nature and tempo of the English Reformation as an agent of social and cultural transformation. The book speaks directly to the central concerns of current Reformation scholarship, addressing questions posed by 'revisionist' historians about the vibrancy and resilience of traditional religious culture, and by 'post-revisionists' about the penetration of reformed ideas. Dr Marshall demonstrates not only that the dead can be regarded as a significant 'marker' of religious and cultural change, but that a persistent concern with their status did a great deal to fashion the distinctive appearance of the English Reformation as a whole, and to create its peculiarities and contradictory impulses.

The Building of Elizabethan and Jacobean England Dec 12 2020 Building accounts, government regulation and theoretical writing on the one hand and pictorial representation on the other directed new ways of documenting the changed appearance of the buildings in which people lived, worshipped and worked. This book shows how changes of style in architecture emerged from the practical needs of building a new society through the image-making of public and private patrons in the revolutionary century between Reformation and Civil War."--BOOK JACKET.

Women's Labour and the History of the Book in Early Modern England Aug 27 2019 This collection reveals the valuable work that women achieved in publishing, printing, writing and reading early modern English books, from those who worked in the book trade to those who composed, selected, collected and annotated books. Women gathered rags for paper production, invested in books and oversaw the presses that printed them. Their writing and reading had an impact on their contemporaries and the developing literary canon. A focus on women's work enables these essays to recognize the various forms of labour -- textual and social as well as material and commercial -- that women of different social classes engaged in. Those considered include the very poor, the middling sort who were active in the book trade, and the elite women authors and readers who participated in literary communities. Taken together, these essays convey the impressive work that women accomplished and their frequent collaborations with others in the making, marking, and marketing of early modern English books.

Renovating the Sacred Apr 27 2022 The English Reformation was no bolt of lightning out of a clear blue sky. Nor was it an event that was inevitable, smooth, or predictable. Rather, it was a process that had its turbulent beginnings in the late medieval period and extended through until the Restoration. This book places the emphasis not just on law makers or the major players, but also, and more importantly, on those individuals and parish communities that lived through the twists and turns of reform. It explores the unpredictable process of the English Reformation through the fabric, rituals and spaces of the parish church in the Diocese of Norwich c. 1450-1662, as recorded, through the churchwardens' accounts and the material remains of the late medieval and early modern periods. It is through the uses and abuses of the objects, rituals, spaces of the parish church that the English Reformation became a reality in the lives of these faith communities that experienced it.

The Medieval Stained Glass of Lancashire Oct 10 2020 This is a catalogue of the pre-Gothic Revival stained glass found at 57 sites in Lancashire. The extensive and magnificent, but virtually unknown, collection of Liverpool's Walker Art Gallery is catalogued here for the first time. The introduction places the indigenous glass in the context of the social and religious history of Tudor Lancashire.

1517 Jun 17 2021 Martin Luther's posting of the 95 Theses to the door of the Castle Church in Wittenberg on 31 October 1517 is one of the most famous events of Western history. It inaugurated the Protestant Reformation, and has for centuries been a powerful and enduring symbol of religious freedom of conscience, and of righteous protest against the abuse of power. But did it actually really happen? In this engagingly-written, wide-ranging and insightful work of cultural history, leading Reformation historian Peter Marshall reviews the available evidence, and concludes that, very probably, it did not. The theses-posting is a myth. And yet, Marshall argues, this fact makes the incident all the more historically significant. In tracing how - and why - a 'non-event' ended up becoming a defining episode of the modern historical imagination. Marshall compellingly explores the multiple ways in which the figure of Martin Luther, and the nature of the Reformation itself, have been remembered and used for their own purposes by subsequent generations of Protestants and others - in Germany, Britain, the United States and elsewhere. As people in Europe, and across the world, prepare to remember, and celebrate, the 500th anniversary of Luther's posting of the theses, this book offers a timely contribution and corrective. The intention is not to 'debunk', or to belittle Luther's achievement, but rather to invite renewed reflection on how the past speaks to the present - and on how, all too often, the present creates the past in its own image and likeness.

The European World 1500-1800 Mar 15 2021 The European World 1500-1800 provides a concise and authoritative textbook for the centuries between the Renaissance and the French Revolution. It presents early modern Europe not as a mere transition phase, but a dynamic period worth studying in its own right. Written by an experienced team of specialists, associated with a university module of the same name, it offers a student-friendly introduction to all major themes and processes of early modern history. Structured in four parts dealing with socio-economic, religious, cultural and political issues, it adopts a broad geographical perspective: Western and Central Europe receive particular attention, but dedicated chapters also explore the wider global context. Thematic priorities include social structures, Reformation change, expanding

cultural horizons and the emergence of the modern state. Specially designed to assist learning, The European World 1500-1800 features: up-to-date surveys of key topics written by an international team of historians suggestions for seminar discussion and further reading extracts from primary sources and vivid illustrations, including maps a glossary of key terms and concepts a chronology of major events a full index of persons, places and subjects a fully-featured companion website accessible at www.routledge.com/textbooks/9780415432535. The European World 1500-1800 will be essential reading for all students embarking on the discovery of the early modern period.

The Reformation: A Very Short Introduction Feb 23 2022 The Reformation transformed Europe, and left an indelible mark on the modern world. It began as an argument about what Christians needed to do to be saved, but rapidly engulfed society in a series of fundamental changes. This Very Short Introduction provides a lively and up-to-date guide to the process. It explains doctrinal debates in a clear and non-technical way, but is equally concerned to demonstrate the effects the Reformation had on politics, society, art, and minorities. Peter Marshall argues that the Reformation was not a solely European phenomenon, but that varieties of faith exported from Europe transformed Christianity into a truly world religion. The complex legacy of the Reformation is also assessed; its religious fervour produced remarkable stories of sanctity and heroism, and some extraordinary artistic achievements, but violence, holy war, and martyrdom were equally its products. A paradox of the Reformation - that it intensified intolerance while establishing pluralism - is one we still wrestle with today. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Charities of Rural England, 1480-1660 May 17 2021 This volume deals with the charitable contributions of three predominantly rural counties, Buckinghamshire, Norfolk, and Yorkshire, selected principally because of the historical and geographical diversity which they exhibit and because they yielded to the process of social change in our age with quite differing rates of momentum. Taken together, it may well be held that they represent a fair cross-section of the rural England of the Tudor and Stuart periods.

Reformation England 1480-1642 Oct 02 2022 Reformation England provides a clear and critical account of recent scholarly approaches, giving a reassessment of familiar debates and topics with introductions to newer historiographical concerns: religious life before the Reformation; the early evangelical movement; meanings of 'puritanism' and 'catholicism' in the later sixteenth and seventeenth centuries; the nature of religious 'conformity'; religious conflict and the advent of civil war. The book addresses a problem whose ramifications are still with us: why the English became divided over religion, and why, despite the efforts of a succession of governments, those divisions could not be healed.

Reformation Jun 25 2019 The Reformation was the seismic event in European history over the past 1000 years, and one which tore the medieval world apart. Not just European religion, but thought, culture, society, state systems, personal relations - everything - was turned upside down. Just about everything which followed in European history can be traced back in some way to the Reformation and the Counter-Reformation which it provoked. The Reformation is where the modern world painfully and dramatically began, and MacCulloch's great history of it is recognised as the best modern account.

Reformation England 1480-1642 Sep 01 2022 Reformation England 1480-1642 provides a clear and accessible narrative account of the English Reformation, explaining how historical interpretations of its major themes have changed and developed over the past few decades, where they currently stand - and where they seem likely to go. A great deal of interesting and important new work on the English Reformation has appeared recently, such as lively debates on Queen Mary's role, work on the divisive character of Puritanism, and studies on music and its part in the Reformation. The spate of new material indicates the importance and vibrancy of the topic, and also of the continued need for students and lecturers to have some means of orientating themselves among its thickets and by-ways. This revised edition takes into account new contributions to the subject and offers the author's expert judgment on their meaning and significance.
