Handbook of International Futurism Jun 01 2020 The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

Food Heritage and Nationalism in Europe Apr 11 2021 Food Heritage and Nationalism in Europe contends that food is a fundamental element of heritage, and a particularly important one in times of crisis. Arguing that food, taste, cuisine and gastronomy are crucial markers of identity that are inherently connected to constructions of place, tradition and the past, the book demonstrates how they play a role in intangible, as well as tangible, heritage. Featuring contributions from experts working across Europe and beyond, and adopting a strong historical and transnational perspective, the book examines the various ways in which food can be understood and used as heritage. Including explorations of imperial spaces, migrations and diasporas; the role of commercialisation processes, and institutional practices within political and cultural domains, this volume considers all aspects of this complex issue. Arguing that the various European cuisines are the result of exchanges, hybridities and complex historical processes, Porciani and the chapter authors offer up a new way of deconstructing banal nationalism and of moving away from the idea of static identities. Suggesting a new and different approach to the idea of so-called national cuisines, Food Heritage and Nationalism in Europe will be a compelling read for academic audiences in museum and heritage studies, cultural and food studies, anthropology and history.

APM - Archeologia Postmedievale, 18, 2014 - Archeologia dei relitti postmedievali / Archaeology of Post-Medieval Shipwrecks Jul 26 2022

Archeologia dei relitti postmedievali / Archaeology of Post-Medieval Shipwrecks, a cura di Carlo Beltrame Il volume, che raccoglie undici contributi di archeologi marittimi di molti paesi, ha l'obiettivo di accendere i riflettori sulle enormi potenzialità dei relitti di età storica, mettendo a confronto, da un lato, approcci diversi (di ambito mediterraneo ma anche statunitense, australiano e nord europeo), dall'altro, contesti archeologici con caratteristiche altrettanto diverse per l'ambiente di giacitura e per l'impiego civile o militare dell'imbarcazione. Gli studi, diacronici ma incentrati sul Cinquecento e sull'Ottocento, coprono le varie sfaccettature dell'indagine storica dei relitti di età postmedievale quali la costruzione navale, il commercio e la vita di bordo, ma anche aspetti di tipo squisitamente metodologico quali l'archeologia sperimentale navale. Si tratta di una novità assoluta per l'editoria scientifica italiana in cui questo particolare, ma molto promettente, ambito della ricerca archeologica non aveva ancora trovato adeguato spazio.

Atti casuali di violenza insensata Jun 20 2019 Come racconterebbe la propria discesa agli inferi una ragazzina di 12 anni? Così, come Lola in *Atti casuali di violenza insensata* la (de)scrive a Anne, il suo diario. Tutto comincia con fatti di ordinaria amministrazione: un padre che non trova a chi vendere le proprie sceneggiature e una madre traduttrice e insegnante che non riesce a lavorare se non a ritmi forsennati. Due sorelline in tenera età e una grande, grande città: New York. Eppure gli echi di una diffusa guerriglia urbana entrano di prepotenza all'interno del racconto che Lola scrive a Anne, il suo diario. Il presidente muore ammazzato, poi ne muore un secondo, la criminalità fa il paio con una fortissima crisi economica e sociale serpeggia una violenza alla Arancia Meccanica. Anche le amichette della scuola (privata) voltano la faccia a Lola quando i genitori sono costretti a trasferirsi in un quartiere popolare per mancanza di denaro. Pian piano Lola si trova a giocare a fare la dura e a entrare in gang di quartiere al femminile. L'amore per Iz, ragazza nera spigliata e combattiva, la trascina sempre più a fondo e ogni sera il coprifuoco viene anticipato... Un mondo distopico come un romanzo di Philip K. Dick che, come nella migliore letteratura fantascientifica assomiglia moltissimo al nostro, funestato dalla crisi. Piccoli elementi sempre più determinanti dipingono una situazione di violenza che non risparmia i bambini, neppure quelli delle "buone famiglie".

Food and Women in Italian Literature, Culture and Society Apr 30 2020 This book explores how women's relationship with food has been represented in Italian literature, cinema, scientific writings and other forms of cultural expression from the 19th century to the present. Italian women have often been portrayed cooking and serving meals to others, while denying themselves the pleasure of the table. The collection presents a comprehensive understanding of the symbolic meanings associated with food and of the way these intersect with Italian women's socio-cultural history and the feminist movement. From case studies on Sophia Loren and Elena Ferrante, to analyses of cookbooks by Italian chefs, each chapter examines the unique contribution Italian culture has made to perceiving and portraying women in a specific relation to food, addressing issues of gender, identity and politics of the body.

Comparing Greek Colonies Sep 04 2020 The need for a "new" book on Greek colonization arose to analyse this phenomenon as a long-term process in a wide geographic area. The events related to individual cities and regions, although geographically very distant from each other, are linked through an articulated network of material and immaterial relations and have to be considered as part of a broader mobility process

in a Mediterranean perspective. The intention of "Comparing Greek Colonies" is to bring geographically and culturally distant regions such as Southern Italy/Sicily and the Black Sea, closer together, not merely to find "similarities and differences", but to broaden the scholars' perspective and overcome existing, generalizing, and biased models, that are often rooted in local scientific traditions. The proceedings of the international conference "Comparing Greek Colonies. Mobility and Settlement Consolidation from Southern Italy to the Black Sea (8th – 6th century BC)", 7.–9.11.2018 in Rome, are structured around three core topics (economic system; relationships with the indigenous populations; social and territorial systems) that constitute the cornerstones of the political formation of the polis in the Archaic period and for its development during the Classical and Hellenistic Ages.
