Law, State and Religion in Bosnia and Herzegovina Mar 04 2020 This book explores relations between state, religion and law in Bosnia and Herzegovina. Historically, multi-religiousness has been a constant feature of the Bosnian polity, from its creation in 12th century until modern times. Since the middle of the 19th Century, Catholics have tended to self-identify as Croats, Orthodox Christians as Serbs, and Muslims as Bosniaks. Moreover, in a region that has undergone significant recent transformation, from the communist to the liberal political system, Bosnia and Herzegovina represents a very interesting case for the study of the relationship between state and religion. This book includes a short overview of historical aspects of these relations and a detailed analysis of the existing constitutional and legal framework on freedom of religion and relations between the state and religious communities. It assesses the actual implementation in practice, including the relevant national courts' case-law. The work covers both the developments of new legal standards, while also identifying the main obstacles in their implementation. At a time when the region is again the subject of much interest, this book will be essential reading for those working in the areas of Law and Religion, Constitutional Law and Transitional Justice. **The Suitcase** Jun 26 2019 The stories of the refugees from the war in Bosnia. **Bosnia** Oct 03 2022 Discusses the different ethnic and religious groups that inhabit Bosnia, and looks at the political and cultural upheaval that have been a continuing part of the region's history [Bosnia and Herzegovina's Foreign Policy Since Independence](#) Sep 09 2020 This book is the first to provide a comprehensive and systematic analysis of the foreign policy of Bosnia and Herzegovina, a post-conflict country with an active agency in international affairs. Bridging academic and policy debates, the book

summarizes and further examines the first twenty-five years of BiH's foreign policy following the country's independence from Yugoslavia in 1992. Topics covered include conflict and post-conflict periods, Euro-Atlantic integration, political affairs on both local and regional levels, integration with a variety of international organizations and actors, neighboring states, bilateral relations with relevant other states including the United States, Russia, selected EU countries, and Turkey, as well as BiH's diaspora. The book highlights that despite their apparent weakness, post-conflict states have agency to carry out foreign policy goals and engage with the international sphere, including in geopolitics, and thus provides a novel insight into weak states and their role in international politics. *Historical Dictionary of Bosnia and Herzegovina* Jan 26 2022 This second edition of the Historical Dictionary of Bosnia and Herzegovina sheds light on the uncertain future faced by Bosnia and Herzegovina, while providing essential background information. It contains a chronology; an introduction; more than 350 cross-referenced dictionary entries on individual topics spanning Bosnia and Herzegovina's political, economic, religious, and social system, along with short biographies on important figures; and a bibliography for further study. **Bosnian Phoenix** Sep 29 2019 Bosnia-Herzegovina is a small country that had an amazing influence on the history of Europe and the world. It formed the heart of Shakespeares Illyria. For centuries, its people were a mainstay of the Roman Empire, providing it with elite troops and several of its greatest emperors. In *Bosnian Phoenix*, author Miljan Peter Ilich offers a novel and enlightening perspective on the astounding historical importance of Bosnia. He emphasizes the resilience of the country throughout its evolution from its ancient historical roots. Its

territory has fluctuated, but the basic geographical extent of what is defined as Bosnia and Herzegovina has been remarkably stable for a long time. Ilich offers an understanding of the conflictual relations in Bosnia by analyzing the inadequately recognized centuries-long significance of that nation in regional and European affairs. For about a century, Bosnia took the lead in defending Europe from Turkish invasions and was a champion of religious liberty within the Christian world. Ilich maintains that since Bosnia and Herzegovina has long been a multiethnic society, its history aids in the understanding of social evolution in other multiethnic societies. The Bosnian story will be meaningful to people in other countries since, with increased globalization, the entire world is fast becoming one huge, complex, multiethnic society. *Bosnian Phoenix* addresses a host of myths about Bosnia and presents insight into this country and what it offers to the world. **The A to Z of Bosnia and Herzegovina** Apr 28 2022 Diversity has always been at the heart of Bosnia and Herzegovina's character; even its dual name and physical geography display a particular heterogeneity. The medieval Bosnian state never enjoyed lasting political and ideological unity as its feudal, regional, and religious rifts pulled at the country's seams. Furthermore, because of its location and by a quirk of history, three major world religious and cultural traditions (Catholicism, Islam, and Orthodoxy) became cohabitants in this small Balkan country. Recently, the rebirth of its statehood has been exceptionally bloody and its diversity has been shaken. Even 11 years after the guns were silenced, the country is still under the "benevolent" protection of the international community, whose officials are keeping the state-building process in perpetual suspense, with no final result in sight. *The A to Z of Bosnia and Herzegovina* sheds light on the uncertain situation Bosnia and Herzegovina faces, while providing essential background

information. This is accomplished through a chronology, an introduction, a bibliography, and more than 300 cross-referenced dictionary entries on individual topics spanning Bosnia and Herzegovina's political, economic, religious, and social system along with short biographies on important figures.

The Favorable Factors of Power Sharing

Aug 21 2021 Bachelor Thesis from the year 2015 in the subject Politics - International Politics - Region: South East Europe, Balkans, grade: 1,3, University of Passau (Chair for International Politics), language: English, abstract: Ultimately, the question "Which factors have been favoring and obstructing power sharing in Bosnia and Macedonia?" will be answered in this thesis. The first part will offer the theoretical framework following Arend Lijphart's Favorable Conditions for Consociational Democracy, which has been subject of constant readjustment over the course of his different studies on consociationalism. Following a brief introduction on the theory of consociationalism, the nine favorable factors of power sharing by Lijphart will be explained in greater detail. External actors will be added as an additional factor up for review. Criticism of Lijphart's factors will conclude the first part of the thesis. The main part of the thesis is concerned with the actual case studies of Bosnia and Macedonia. The theoretical model will be applied to the countries realities, by dedicating a chapter to each factor. Each chapter will end with a short conclusion on whether the factor can be considered favorable in the respective countries, while also including a brief comparison between Bosnia and Macedonia. Moreover, the conclusion will draw a comparison of the effects of the favorable factors in Bosnia and Macedonia and therefore help assessing the relevance of Lijphart's favorable factors in general.

The Political System of Bosnia and Herzegovina

Aug 01 2022 This book is an introduction to the basics of Bosnian political structure, institutions, and political processes. Twenty-five years after the Dayton Peace Agreement ended the Bosnian war, the political process still maintains various levels and divisions among political entities. A transitional, post-conflict, divided, multicultural, state-building society, Bosnia and Herzegovina represents a complex and unique political system through which a myriad of topics can be studied. Applying multidisciplinary and interdisciplinary methodologies, the book presents a descriptive analysis and critical evaluation of the various aspects of the political system of Bosnia and Herzegovina. The chapters address various aspects of the political system, such as institutions and state building, the legal system and the post-war constitution, as well as an examination of Bosnia and Herzegovina's place in the international community and their relationship with European Union and NATO. Providing a holistic view of the development, politics, and policy of this unique state, this book will be ideal for students studying the contemporary history of Bosnia and

Herzegovina, as well as students and researchers of political science, international relations, and development.

Being Muslim the Bosnian Way Jun 06 2020

"I have been able to follow a Bosnian community over a period of six years, during which it has undergone dramatic changes. In the late 1980s people were working hard against economic crisis. In 1990 they were full of optimism for the future. In January 1993 the village was in fear, surrounded by war on all sides. In April 1993 it was attacked by Croat forces. In October 1993 none of the Muslims in the village remained. They had either fled, been placed in detention camps, or been killed." Thus begins Tone Brंगा's moving ethnographic account of Bosnian Muslims' lives in a rural village located near Sarajevo. Although they represent a majority of the population in the Republic of Bosnia and Herzegovina, Bosnian Muslims are still members of a minority culture in the region that was once Yugoslavia. The question of ethno-national identity has become paramount in this society, and the author focuses on religion as the defining characteristic of identity. Brंगा pays particular attention to the roles that women play in defining Muslim identities, and she examines the importance of the household as a Muslim identity sphere. In so doing, she illuminates larger issues of what constitutes "nationality." This is a gripping and heartfelt account of a community that has been torn apart by ethno-political conflict. It will attract readers of all backgrounds who want to learn more about one of the most intractable wars of the late twentieth century and the people who have been so tragically affected.

Multinational Federalism in Bosnia and Herzegovina Feb 24 2022 In 1995 none of the political parties representing the peoples of Bosnia preferred a federal option. Yet, Bosnia became a federal state, highly decentralised and with a complex institutional architecture. This solution was imposed on them by international actors as a result of peace negotiations following the Yugoslav wars. Political parties in post-war Bosnia were not willing to identify with or accept the federation. The international community intervened taking over key decisions and so Bosnia and Herzegovina became the first state to experience a new model of federalism, namely 'imposed federalism' and a new model of a federal state, that of the 'internationally administered federation'. By combining comparative politics, conflict analysis and international relations theory Soeren Keil offers a unique analysis of federalism in post-Dayton Bosnia and Herzegovina. By exploring this model of 'imposed federalism' not only does this study greatly contribute to the literature on developments in Bosnia and Herzegovina it also re-evaluates comparative federalism in theory and practice. This study also offers important conclusions for similar cases, both in the Western Balkans region and the wider world, where international involvement and federalism as a method of conflict resolution in diverse societies becomes ever more prevalent and important.

Bosnia-Herzegovina Jun 18 2021 The papers

collected in this volume provide fascinating primary source material and an insider's account of the intense international political activity in 1992 in the former Yugoslavia, which culminated in the Vance-Owen Peace Plan (VOPP). Lord David Owen highlights elements of the VOPP that are of continuing relevance and may guide political debate and decisions in 2012 and hereafter. This book reminds the international community and the people of Bosnia and Herzegovina that a unified structure for their country is still achievable.

Bosnia and the Destruction of Cultural Heritage Dec 25 2021

The massive intentional destruction of cultural property during the 1992-1995 Bosnian War was a seminal marker in cultural heritage. This important volume offers the first comprehensive overview and critical analysis of the wartime destruction and post-conflict reconstruction of Bosnia-Herzegovina's cultural heritage and its far-reaching impact. Scrutinizing the responses of the international community (including UNESCO), and examining the International Criminal Tribunal for the former Yugoslavia and implementation of Annex 8 of the Dayton Agreement, it considers questions which have moved to the foreground with the inclusion of cultural heritage preservation in human rights discourse and in post-conflict and development aid.

The Bosnian War and Ethnic Cleansing Dec

13 2020 The Bosnian War (1992-1995) involved ferocious killing among a trio of the region's major ethnic groups: Serbs, Croats, and Muslims. By the war's end, as many as 26,000 Muslim civilians had been systematically murdered. This insightful resource offers a unique look at those terrifying events, including highlighting three possible perspectives on the war and the confusion these different perspectives can cause, even years later. Readers will also benefit from a review of Bosnia's history and the events that culminated in this gruesome time.

The Importance of the Brčko District in Bosnia Herzegovina Jul 08 2020

Seminar paper from the year 2014 in the subject History of Europe - Newer History, European Unification, grade: A, University of Dalarna, language: English, abstract: In this Research paper I will discuss the importance of District Brčko of Bosnia and

Herzegovina for peace and stability in Bosnia and Herzegovina. In this paper I will include the time from 1992, Dayton peace negotiations, grounding decision for Brčko District in 1999 and its important facts for Bosnia and Herzegovina, what this decision brought good and what does not function, up to latest decision of frizzing of OHR office in district Brčko. I will also highlight current political discourse in Bosnia and Herzegovina and its effects on security in Bosnia and Herzegovina are. Keywords: District Brčko, Ethnic segregation, Dayton peace agreement, Separation process in Bosnia and Herzegovina, Peace in Bosnia, Federation of Bosnia and Herzegovina, Republic of Srpska. In 1995 with signing the Dayton Peace Agreement armed conflict in Bosnia and Herzegovina has ended. It was signed by representatives of Bosnia and Herzegovina, Serbia and Croatia and the Contact Group Nations. Amongst other, DPA has divided Bosnia in two parts. It is important to mention that Federation of Bosnia and Herzegovina is then divided in ten Cantons. Most of them are with Bosnian majority, but some of them are also with Croat majority, mainly in southern Bosnia. DPA has indeed stopped the armed conflict in Bosnia, but it did not resolve the ethnic tensions that were still more than obvious in Bosnia. Milestone of ethical and religious division is the education in Bosnia. At the moment there are three different curriculums active in Bosnian primary schools: Bosnian, Croatian and Serbian. Radušić writes that there are no teaching plans and programs at the state level, but only at the Entity level. Radušić was speaking about the "National groups of subject".

The War in Bosnia Jun 30 2022 Boston, November 5, 1995 The war in Bosnia and Herzegovina is an unheard-of tragedy. Before the eyes of the entire world, a state is being destroyed, and the people (population) of a nation are suffering the genocide and ethnic cleansing. All the principles of humanity, morals, and international rules have been trampled. The question most often asked is, how could that happen today when the genocide committed during World War II is so well known (the Holocaust) and when the international community had the will and the means to protect the Republic of Bosnia and Herzegovina? The international community has shown that it is not the enemy of the Republic of Bosnia and Herzegovina and that it accepts this state into its membership when it recognized the Republic of Bosnia and Herzegovina on April 7, 1992. With that act, the international community stood up against the Serbian nationalism, which only started to bloody its hands in Bosnia and Herzegovina. So how come that in the fall of 1995, after the innumerable atrocities committed by the Serbs revolted the world, the international community crossed over to the side of the war criminals, giving them 49 percent of Bosnia and Herzegovina with its Dayton peace proposals? Who was the mastermind who succeeded to change the world opinion and what methods did he use? This book answers some of those questions. The reading of this book has to be approached with having faith in no one but a common sense. Besides that, from the reader who comprehends what is truly happening in Bosnia, it is expected that he/she spreads the

truth. The ultimate goal is to help in the fight against the forces of betrayal and the division of Bosnia and Herzegovina. Wishing to arm the Bosnian patriots as soon as possible with the knowledge of what is really happening, this book is being written in a hurry. I still hope that this book will reach Bosnians and friends of Republic of Bosnia and Herzegovina all over the world before it is too late and while it is still possible to say no to the division of a member of the United Nations.

Violent Places May 18 2021 In this multi-sited ethnography, the author explores how political agency is shaped through interactions on public places across four central Bosnian and Herzegovinian cities. The author shows that everyday life on public places in post-war Bosnia and Herzegovina is fundamentally political: either by design or by default, and that no one can escape the highly dynamic negotiations of rights, duties, and obligations that occur in every public interaction. These positioning games are far from innocent; they create elites, manifest political power, and in the same moment cut out more and more citizens of Bosnia and Herzegovina from the promises set by market economy and democracy. Through examining hundreds of interactions on public spaces ranging from soccer stadiums and market halls to graveyards, this study not only shows how post-war political agency in Bosnia and Herzegovina is bound to the public realm, but also that options for defining one's personal future are less linked to ethno-national group membership than widely assumed. Instead local, generational, and economic differences play a significant role in determining everyday livelihood. These factors - unique in their composition in every observed place - highlight a new realm of conflict potentials that will shape the future of Bosnia and Herzegovina over the next decade.

Islam and Nationhood in Bosnia-Herzegovina May 06 2020 Based on substantial fieldwork and thorough knowledge of written sources, Xavier Bougarel offers an innovative analysis of the post-Ottoman and post-Communist history of Bosnian Muslims. Islam and Nationhood in Bosnia-Herzegovina explores little-known aspects of the war in Bosnia and Herzegovina, unravels the paradoxes of Bosniak national identity, and retraces the transformations of Bosnian Islam from the end of the Ottoman period to today. It offers fresh perspectives on the wars and post-war periods of the Yugoslav space, the forming of national identities and the strength of imperial legacies in Eastern Europe, and Islam's presence in Europe. The question of how Islam is tied to national identity still divides Bosnian Muslims. Islam and Nationhood in Bosnia-Herzegovina places the history of ties between Islam and politics in Bosnia and Herzegovina in the larger global context of Bosnian Muslims relations both with the umma (the global Muslim community) and Europe from the late 19th century to the present and is a vital contribution to research on Islam in the West.

Sustainable Development of Bosnia and Herzegovina. A Never Reached Goal? Feb 01 2020 Research Paper (postgraduate) from the year 2018 in the subject Politics - International Politics - Region: South East Europe, Balkans, grade: B, Leuphana Universität Lüneburg,

language: English, abstract: This essay views the various development projects and initiatives of Bosnia and Herzegovina concerning their long-term sustainability. Bosnia and Herzegovina is a country which after 23 years of direct involvement of the international community in achieving its sustainable political and economic development still exists as a kind of semi-international protectorate. In addition, Bosnia and Herzegovina's market has never been fully transformed into the western economy concept, where the lack of privatization of the state-owned companies is primarily emphasized. It remains doubtful whether the long-lasting intervention of the international community has delivered the necessary results for any kind of future sustainable development of Bosnia and Herzegovina. Ever since the war in Bosnia and Herzegovina (1992-1995) ended, and even before that, various development cooperation projects launched by numerous countries and by the international community as a whole have been implemented in Bosnia and Herzegovina. They targeted countless fields of country's structure; from attempts to increase its administrative effectiveness, through initiatives for the much-needed changes within the field of enhancement of political accountability and the country's infrastructure and finally, initiating moves to make the country's market more open and competitive. If we try to assess the impacts of all these development projects and initiatives and their expected long-term sustainability, it seems that most of them failed to make any sustainable effect. Unfortunately, there are no accurate numbers showing the total amounts of funds invested in the reconstruction of Bosnia and Herzegovina, but in accordance to some sources, only the World Bank Mission to Bosnia and Herzegovina from 1996 to 2000 invested 2.7 billion Euro in the reconstruction of the country's basic infrastructure.

The Geography of Bosnia and Herzegovina Jan 14 2021 This monograph provides a comprehensive overview of fundamental scientific insights into the geographical features of a country which was and still is in the centre of the geopolitical battle of the large world powers and especially neighboring countries. The book presents the scientifically proven reserves of individual resources such as: mineral riches, land, forests, flora and fauna, water and climate features, to the extent needed, through statistical indicators and geographic maps. The authors point to features and specifics of the existing interdependence of economic and political development and impact of natural resources on spatial development which can be useful for potential investors, spatial planners, decision makers, politicians, geographers, students, large Bosnian diaspora and anyone interested in area of Bosnia and Herzegovina. This book fills the gap in geographical literature on Bosnia and Herzegovina in the English language. The monograph appeals to researchers and scholars of all levels in the fields of geography, geopolitics, history and related fields and everyone interested in this country between East and West.

Bosnian Refugees in America Jul 28 2019 In April of 1992, war began in Bosnia. Sarajevo, site of the 1984 Winter Olympics, and, we were told, one of the most beautiful cities in the

world, became a city under siege. For all of the people of Bosnia, life shifted in unimaginable ways in a matter of hours, days, or weeks. An immediate exodus began from Bosnia, and people who had never anticipated leaving their country became refugees, dependent upon a world system of resettlement for displaced persons. This book relates the experiences of a hundred Bosnian families who came to Utica, a town in upstate New York. Bosnians in Utica came here as refugees - fleeing in 1993, having fled from the wars of succession in the former Yugoslavia. Our study evolved over several years as a result of our interests in the war in Bosnia and the massive flow of refugees that it precipitated. We began work on the project in the late 1990s as we set out to learn about the war and to explore refugee experiences of displacement, transit, and resettlement. Our intent is to portray the experience of Bosnian refugees in one American city and to capture, in their words, in as much detail as possible their adjustment to a new community and a new culture.

State-Building and Democratization in Bosnia and Herzegovina Oct 30 2019 State Building and Democratization in Bosnia and Herzegovina details the post-Dayton evolution of the country over the last two decades. Carefully evaluating the successes and failures the book explores the slow progress of the democratization process and how key elites initially took hold of the state and its institutions and have successfully retained their grip on power, despite heavy international presence and reform attempts to counter-balance this trend. Bosnia and Herzegovina offers a useful lens through which to view international state-building and democratization efforts. International engagement here incorporated significant civilian and military investment and has been ongoing for many years. In each chapter international scholars and field-based practitioners examine the link between post-war events and a structure that effectively embeds ethno-national politics and tensions into the fabric of the country. These contributors offer lessons to be learned, and practices to be avoided whilst considering whether, as state-building and democratization efforts have struggled in this relatively advanced European country, they can succeed in other fragile states.

Serb denial of Bosnia and Bosniaks Dec 01 2019

The Mosque Aug 28 2019 The Mosque is an extended meditation on a dimension of Islam unfamiliar to most Western readers. The mosque, Rusmir Mahmut cehaji c argues, is not an analogue of the Christian church, not least because in Islam there is no priesthood and no institutionalized hierarchy. Rather, every Muslim is his or her own priest, and most religious obligations are performed in the home. The function of the mosque is thus dispersed throughout society and, indeed, throughout the natural world as well. The Arabic word from which English mosque derives means literally "place of prostration"--the place one performs the daily ritual prayer of submission to God, so as to become a guest at the table God has sent down to manifest himself. That table is also the world's mosque, the world as mosque. Among the many tragic

victims of the Bosnian genocide are its mosques; more than a thousand were destroyed. A part of the essential fabric of Bosnian life was changed. With this book, Rusmir Mahmut cehaji c seeks to rebuild the spirit and majesty of each mosque that was destroyed, the spiritual grace it lent the Bosnian landscape. "Beautifully composed, elegantly written and constructed, this is a primary text of Islamic spirituality, by one of the most significant Muslim European voices of our age A book to be returned to again and again."--Adam B. Seligman, Boston University "This work by one of the leading intellectual figures of Bosnia is one of the finest written in the English language on the spiritual significance of the mosque. It speaks the language of universal spirituality and is able to open a door for Western readers to the relationship between the mosque, as understood outwardly, and the inner mosque, which is the heart. The book also reflects in most elegant language the reality of a land where mosques, churches, and synagogues have stood side by side over the centuries, each bearing witness in its own way to the Presence of the One."--Seyyed Hossein Nasr, George Washington University

Bosnian Americans of Chicagoland Nov 23 2021 The first Bosnians settled in Chicagoland in the late 19th and early 20th centuries, joining other immigrants seeking better opportunities and better lives. As the former Yugoslavia continued to find its identity as a nation over the last century, the people of Bosnia and Herzegovina sought stability and new beginnings in the city of Chicago--many intending to return to their homeland. Today as many as 70,000 Bosnians and their descendants live in the Chicago area, representing different faiths, backgrounds, and motivations for making America their new home. *Bosnian Americans of Chicagoland* examines the journey of this group, its legacy, and its traditions and customs that have lasted since the first immigrants arrived a century ago.

Discourse and Affect in Postsocialist Bosnia and Herzegovina Nov 11 2020 This book examines the making and breaking of peripheral selves in and from postsocialist Bosnia in an empirically rich self-reflexive account of politico-economic and ideological developments. Through world systems and postcolonial theory, historical and new materialist optics, discursive and affective analytical registers, and various qualitative methodological choices, the author analyzes peripheral subjectivity in connection to global proletarianization, as well as past and present resistance via social and personal movement(s). She refers to past Yugoslav socialist and anticolonial struggles as well as more recent ones, including the social justice and feminist collective, engaging with workers' and women's struggles in postwar Bosnia and the Justice for David movement. Finally, she analyzes the lives of new third-wave Bosnian migrants to Germany post-2015, placing them in juxtaposition with non-European migrants in Bosnian reception centers and exposing labor

and race, border struggles and market as new variables for studying selves in this particular context. Writing about "situated knowledge" and "politics of location," the author stresses the importance of strong affective ties within researcher-researched assemblages urging for deeper coalitions and solidarity among various peripheral, power-differentiated communities. This book will be of interest to readers with backgrounds in linguistics, sociology, post-Yugoslav history, cultural studies and anthropology.

The Political System of Bosnia and Herzegovina Apr 16 2021 This book is an introduction to the basics of Bosnian political structure, institutions, and political processes. Dayton and Beyond Sep 02 2022 In this book,

recognized international and Bosnian experts and analysts address the future of Bosnia in the area of constitutional reform, economic development, culture and education. A provocative introductory section asks whether the Dayton agreement has failed to create stable institutions of government able to deal with the challenges the country faces on its way to Euro-Atlantic integration. Among the key issues debated in this volume are the primacy of individual over group rights, a recent court decision that all three ethnic groups are constituent throughout the country, the role of culture and education in reinforcing division rather than integration, and the abysmal economic record which is in large part due to policy failures. The book provides a differentiated picture of a complex situation and will be useful to those interested in Bosnia's triple transition process from war to peace, a one-party state to a liberal democracy, and a planned to a market economy. It goes beyond a simple snapshot of a country's situation to suggest that a strategy focused on local ownership is now needed a point of direct relevance to peace missions elsewhere.
