book stars Mia, a biracial little girl with crazy pigtails, and her two moms. It explores all the possibilities that come from parents splitting up. Kids and grown-ups have lots of fears, but for many of us, the "unknown" edges out pretty much everything else. When something big like a divorce or separation happens in a child's life, they often feel like everything they know is thrown into chaos. Kids (like the rest of us) handle change best if they know what to expect, both on a day-to-day basis and long-term. What Happens When Moms Divorce makes sense of marital separation and creates a visual routine that helps kids feel safe. Join Mia and her stuffed giraffe Stuart as they explain what separation and divorce is and how it affects a kid's day-to-day life. Using an illustrated calendar to explain how divorce affects a child's daily routine, What Happens When Moms Divorce focuses on the child's experience and removes the unknowns from the equation. This book takes the proven therapy technique of using a custody calendar and brings it to book form, helping same-sex couples show kids exactly what to expect. "Most of the time we do the same things in the mornings. We wake up. We eat breakfast. (I like apples. Stuart only eats bugs.) . . . When something big changes, what we do each day can change too. Stuart wants to know what happens to our days when our parents get divorced." By creating a routine that kids can see and understand, parents can restore a sense of safety and predictability in their kids' lives, helping them to be more resilient in the face of life's inevitable challenges. What Happens When Moms Divorce is the perfect book for families that want to reduce their kids' anxiety surrounding divorce and separation.

**Son With Two Moms** Jun 18 2021 I was taken in at the age of three by Mary Hynes and Janet Simons, after being separated from my mother, who suffered from schizophrenia. After that time, I was shuffled in and out of my grandmothers home before being placed in an orphanage, where I remained for one year. After a tumultuous court battle, I went home with the only two women brave

enough to raise me. However, neither I nor my guardians could have imagined the trials awaiting our family after the proceedings ended. This story is about a young boy adopted by two lesbians of a different race than mine. However, it is much more than that. The harrowing custody battle that shaped an otherwise beautiful childhood, and my mother's battle with cancer, forced me to look at the world in shades of grey at a far younger age than I would have liked. Those experiences, many of them dealing with issues of race and sexuality, helped me stand out when I wanted to fit in. I yearned to be an average child, but people kept asking me about the two women who came to pick me up from school everyday. "e;Why are they white? And do they sleep in the same bed?"e; Children kept asking, waiting for an answer. My responses to their queries began to dovetail into deeper stories, explaining not only my life, but my viewpoints as well. One day a college professor discovered one of these viewpoints in one of my papers and suggested I keep writing. Although sharing my story with my closest friends was hard, the prospect of opening up my life to multitudes of people I didn't know was harder. However, in spite of myself, I began to write. From my mother's last hospital stay to my grandmother's questioning of my sexuality, to the first time I was ever told my moms were going to hell: every moment was important, and every event became a chance to become a better person by standing up for what I believed in, my family.
