The case studies are as diverse as management activities in Asia can be and include a variety of different companies in several Asian countries. ***A Comparative Analysis of Taxes and CO2 Emissions from Passenger Cars in the Nordic Countries Sep 30 2022 The report discusses how economic instruments can be used to reduce CO2 emissions from passenger cars in the Nordic countries. The analysis indicate that: the registration tax and the annual circulation tax can contribute to a reduction in the average CO2 emission from new cars; company car schemes in the Nordic countries provide incentives for larger cars and increased driving because of subsidies, and this has long term effect as a large share of new cars are registered as company cars but are used as private cars most of their lives; CO2 differentiated taxes can provide incentives to consumers to purchase CO2 efficient cars; targeted broader packages which besides providing tax incentives also offer advantages to more environmentally friendly cars can be more effective than general tax increases; transparency of targets and instruments is crucial for a large diffusion of CO2 efficient cars.***

**Once Upon a Crime Aug 30 2022 THE ABSURD CRIME FICTION PARODY BY FICTIONAL AUTHOR 'MARTIN FISHBACK' - AS SEEN ON BBC TWO 'What's better than a good crime novel? I'll tell you - a spoof crime novel, by the absurdly funny and clever Fergus Craig' MIRANDA HART 'We all need more laughs like this' AISLING BEA Exeter: a city in decline, East Devon's capital of crime. Detective Roger LeCarre: a man on a quest to rid the world of crime (starting with Devon and Cornwall and then working outwards) so he can concentrate on his watercolours. LeCarre runs 10km a day but probably burns more calories shaking his head at what has become of his city. Now Exeter is set to become the UK Capital of Culture and the ambitious Lord Mayor wants to turn things around. But when a young man's (dead) body is found in the centre of town, things get murky. Detective Roger LeCarre is a character never seen before in modern fiction - a tough but troubled detective with a drink problem and a marriage in trouble. Can he find out who killed the young man, save the city and change his energy provider before the new more expensive tariff kicks in? Filled with drama, eroticism and very specific Wikipedia-sourced information on Devon, Once Upon A Crime is a thriller that takes itself very seriously and that should not, on any account, actually be taken seriously.**

**Attitude Reacquisition of a Gravity-gradient Control-moment-gyro Stabilized Spacecraft Sep 18 2021 Impulsive or time-decaying disturbances of sufficient magnitude will cause a gravitygradient control-moment-gyro stabilized spacecraft to tumble. A procedure for operating a thruster system by ground command to perform reacquisition was functionally designed and evaluated on an analog computer. When the disturbance has ceased, an on-board thruster system is used to align the total angular momentum vector of the spacecraft in an orientation that allows the control-moment gyros to damp all spacecraft motion into a single axis. For a spacecraft in a Sun-synchronous orbit, a procedure was found to shorten the time for attitude reacquisition by using a solar array for crude attitude information.**
