*El gran secreto de Leonardo da Vinci Apr 28 2020 Hace tres décadas, la datación por carbono de la reliquia cristiana más famosa del mundo reveló de manera concluyente que se trataba de una falsificación medieval o renacentista. Sin embargo, muchas preguntas permanecieron. ¿Cómo pudo un embaucador de hace quinientos años haber creado una imagen que parece tan asombrosamente real? ¿Cómo se formó tal imagen? Y, ¿quién se hubiera atrevido a fingir la Sábana Santa de Jesús? Lynn Picknett y Clive Prince se dispusieron a responder a estas preguntas y descubrieron que el imitador no era otro que Leonardo da Vinci, cuyas innovaciones son reconocidas por haberse adelantado siglos a su tiempo. También reconstruyeron la técnica secreta de Leonardo, convirtiéndose en los primeros en analizar la imagen de la Sábana Santa. Esta nueva edición especial completamente actualizada, publicada para conmemorar el 500 aniversario de la muerte de Da Vinci, presenta inéditas y emocionantes evidencias que vinculan la obra de manera incontrovertible con la Sábana Santa.*

*Contra Prophetam Jul 20 2019 Le Coran de Mahomet prend sa source historique et sémantique dans la Bible comme l'a magistralement montré la remarquable étude de frère Bruno Bonnet-Eymard dans son essai « De l'islamophobie à l'islamologie ». Mais, le Coran est en quasi totale contradiction avec la Bible sur la plan théologique, essentiellement par rapport au Nouveau Testament, mais aussi par rapport à l'Ancien Testament.*

**L'islam de Pétra Réponse à la thèse de Dan Gibson Jun 11 2021** Cet ouvrage présente au lecteur francophone, la thèse de Dan Gibson, qui postule que l'islam serait né à Pétra et non pas à La Mecque actuelle. Cette hypothèse hardie, disons-le, repose sur de nombreux arguments archéologiques mais aussi textuels issus du Coran, de la tradition et des sources historiques islamiques. L'argument archéologique mis en avant par l'auteur serait l'étonnante convergence de la direction des premières mosquées vers la cité de Pétra et non pas vers La Mecque, comme on pourrait s'y attendre. Quant aux arguments textuels sont basés sur le Coran et la tradition. Ils décrivent selon l'interprétation de Gibson, une géologie, une faune et une flore ne correspondant pas à un lieu désertique comme celui d'une ville sud arabe du Hedjaz. La présentation des travaux des Gibson est suivie d'une revue critique, incluant les avis de grands spécialistes tels que : le Pr David KING, le Dr Rick OAKES, le chercheur indépendant Amod Jason DEUS, le Dr Edouard-Marie Gallez, Khaled BALKIN et enfin notre propre évaluation critique.

**Early Christian Voices Apr 09 2021** This collection of studies in honor of François Bovon highlights the rich diversity found within early expressions of Christianity as evidenced in ancient texts, in early traditions and movements, and in archaic symbols and motifs.

**The Qur'an Seminar Commentary / Le Qur'an Seminar Nov 23 2019** The present volume is the work of 25 scholars who represent various specializations important to the study of the Qur'an, including Arabic language, comparative Semitic linguistics, paleography, epigraphy, history, rhetorical theory, hermeneutics, and Biblical studies. The starting point of this work was a series of five international conferences on the Qur'an at the University of Notre Dame over the academic year 2012-13, although the commentaries contributed during those conferences have been carefully edited to avoid repetition. Readers of The Qur'an Seminar Commentary will find that the 50 passages selected for inclusion in this work include many of the most important and influential elements of the Qur'an, including: - Q 1, al-Fatiha - Q 2:30-39, the angelic prostration before Adam - Q 2:255, the "Throne Verse" - Q 3:7, the mukhamat and mutashahhat - Q 4:3, polygamy and monogamy - Q 5:112-15, the table (al-ma'ida) from heaven - Q 9:29, fighting the People of the Book and the jizya - Q 12, the story of Joseph - Q 24:45, the "Light Verse" - Q 33:40, the "seal of the prophets" - Q 53, the "satanic verses" - Q 96, including the passage often described as the "first revelation" - Q 97, the "night of qadr" - Q 105, the "Companions of the Elephant" - Q 112, on God and the denial of a divine son The collaborative nature of this work, which involves a wide range of scholars discussing the same passages from different perspectives, offers readers with an unprecedented diversity of insights on the Qur'anic text.

**Custodians Of Truth Jun 23 2022** A curious thing happened to Tim Wallace-Murphy and Marilyn Hopkins when they published Rex Deus, their first book on the bloodline of Christ: they were contacted by a man from the very lineage they were studying. And instead of denying the existence of the bloodline or berating them for revealing secrets, he actually confirmed that the Rex Deus lineage exists and even disclosed some of its fundamental secrets. The story of the Rex Deus families, direct descendents of Christ--who is believed to have survived the crucifixion?turns out to be much more extensive than the authors first thought. Instead of beginning during the time of Jesus, it stretches far back into antiquity, to the Egyptian Mystery Schools. Instead of being only a propagation of the holy bloodline, the Rex Deus families are also carriers of the secret teachings of Jesus. Custodians of Truth reveals the purpose and secrets of the Rex Deus lineage. Jesus was not only a holy man, but an adept of ancient knowledge, which informed his own teachings. This secret knowledge was suppressed by the Church in their voracious quest for power and influence in the secular world. These teachings have manifested throughout history in different forms--Gnostic philosophy around the time of Jesus, the Order of the Knights Templar, Freemasons, and the current resurgence of interest in New Age thought. Finally, the time is right for the hidden message of Jesus to be revealed--a message of tolerance, brotherhood, and respect for nature. The next chapter in the legend of the Holy Grail and the bloodline of Christ--from the best-selling authors of Rosslyn.

En este libro, entre otras muchas cosas, encontrará: - Investigaciones exclusivas efectuadas en Turín que revelan que la imagen de la Sábana está producida por una energía desconocida de tipo atómico. - La verdadera historia del lienzo milagroso. - Los enigmas de un retrato en tres dimensiones. - Las claves de una imagen que la ciencia no ha podido reproducir. - Los

últimos análisis y restauraciones efectuados sobre el sudario. - La investigación de una periodista que vivió cuatro días junto a la Síndone.

Islam at the Gates May 22 2022 How Christendom defeated the Ottoman Turks. Historian Diane Moczar pulls back the curtain on one of the most important acts in the drama of Muslim aggression against the West: the 500-year-long siege of Europe by the Ottoman Turks. Islam at the Gates chronicles the heroes and villains, the battles and atrocities, the tragic errors and timely miracles, that marked the Ottomans' incursions from Europe's borders to the very heart of Christendom; and afterwards, by the grace of God, their eventual repulsion and final defeat.

Scientific Investigation of Copies, Fakes and Forgeries Nov 16 2021 The faking and forgery of works of art and antiquities is probably now more extensive than ever before. The frauds are aided by new technologies, from ink jet printers to epoxy resins, and driven by the astronomic prices realised on the global market. This book aims to provide a comprehensive survey of the subject over a wide range of materials, emphasising how the fakes and forgeries are produced and how they may be detected by technical and scientific examination. The subject is exemplified by numerous case studies, some turning out not to be as conclusive as is sometimes believed. The book is aimed at those likely to have a serious interest in these investigations, be they curator, collector, conservator or scientist. Paul Craddock has recently retired from the Department of Conservation, Documentation and Science at the British Museum, where he was a materials scientist.

La genealogía del islam Aug 01 2020 El propósito de este libro es ofrecer un mejor conocimiento del islam, en cuanto sistema semiótico, teniendo en cuenta el examen de las fuentes fundacionales, sobre todo el Corán, sin perder de vista los hadices y la biografía de Mahoma. El enfoque no mira a probar ninguna opción de fe, ni tampoco a atacarla. El método se atiene a la regla de averiguar, en lo posible, qué dicen los textos y qué ocurrió realmente en la historia. Ante todo, el principal problema será dilucidar la verdadera naturaleza del islam, a partir de análisis temáticos centrados el texto coránico, a la luz de las investigaciones de los especialistas mejor reconocidos El volumen consta de tres partes. La primera señala 1) la necesidad de conocer el islam en nuestros días y 2) expone brevemente cuáles son los métodos histórico-críticos aplicados al estudio. La segunda parte investiga el origen y la formación del sistema islámico: 3) las fuentes y la historia califal de los orígenes, 4) la historia científica de la génesis del islam, 5) la genealogía macabea, zelota y nazarena, 6) el protoislam nacido del mesianismo judío nazareno. La tercera parte examina los fundamentos de esta religión: 7) el Corán como libro divino del islamismo, 8) las estructuras fundamentales del sistema islámico, 9) Mahoma en la historia y en el mito, y 10) los creyentes como un pueblo sumiso a Mahoma.

Sulle tracce del cristo risorto Jun 18 2019 Tivoli,1988. L' autore, con una accurata esegesi biblica, dimostra non solo la storicità della resurrezione di Gesù, ma anche quella dei racconti evangelici della sepoltura e delle visite al sepolcro, confermando, con argomenti del tutto nuovi, l' insegnamento della Chiesa. Dimostra la storicità dei racconti evangelici, conciliando le apparenti contraddizioni, che finora sembravano insanabili, e riconducendo all' unità di un solo racconto le notizie diverse ma complementari, narrate dai quattro evangelisti. Dimostra la storicità della risurrezione, analizzando tutti gli elementi che la compongono, sia quelli storici che quelli di fede. La risurrezione è un fatto storico, perché è avvenuta in questo mondo con la scomparsa del corpo di Gesù dall' interno delle tele. Di essa conosciamo non solo il tempo ed il luogo, in cui è avvenuta, ma anche le circostanze, che l' hanno preceduta, accompagnata e seguita, e i fenomeni che essa ha prodotto sulle tele e sugli aromi. Infine, siamo in grado di ricostruire la dinamica attimo per attimo. La risurrezione è un mistero di fede, perché è stata causata dall' intervento soprannaturale di Dio Padre, che ha glorificato il suo Figlio Gesù, in anima e corpo, facendolo passare dalla dimensione umana a quella divina. Solo i testimoni oculari o i loro discepoli potevano narrare i fatti e fenomeni con tanta esattezza da permetterne la ricostruzione. Infine, l' autore, con una interpretazione originale delle impronte della sindone di Torino, dimostra che esse confermano pienamente la storicità dei racconti evangelici e della risurrezione di Gesù.

Relic, Icon or Hoax? Apr 21 2022 Interest in the Turin Shroud continues to the present day even though it was finally carbon dated in 1988 and shown not to be of an age consistent with Christ's burial. Scientifically, the age of the shroud cloth is of little consequence, but to the general public, it is of considerable significance. The author Harry E. Gove is a co-inventor of accelerator mass spectrometry and was responsible for its use in establishing whether the Turin Shroud could have been Christ's burial cloth. Relic, Icon or Hoax?: Carbon

**Dating the Turin Shroud presents an eyewitness account of the events that culminated in the final determination of the age of the linen cloth of the Turin Shroud and some of the subsequent reactions to the results. The book discusses the application of accelerator mass spectrometry to the carbon dating of the Turin Shroud using samples only a few square centimeters in area and weighing only a few tens of milligrams.**

**Radiocarbon Dating Aug 25 2022 This volume is a major revision and expansion of Taylor's seminal book Radiocarbon Dating: An Archaeological Perspective. It covers the major advances and accomplishments of the 14C method in archaeology and analyzes factors that affect the accuracy and precision of 14C-based age estimates. In addition to reviewing the basic principles of the method, it examines 14C dating anomalies and means to resolve them, and considers the critical application of 14C data as a dating isotope with special emphasis on issues in Old and New World archaeology and late Quaternary paleoanthropology. This volume, again a benchmark for 14C dating, critically reflects on the method and data that underpins, in so many cases, the validity of the chronologies used to understand the prehistoric archaeological record.**

**Guénonian Esoterism and Christian Mystery Oct 23 2019 Rene Guenon's explication of the principles of an interior understanding of sacred forms has established his reputation in the West as the master theorist of esoterism. But till now his doctrine has not been the focus of thorough study in Christian circles, and this has had serious consequences. Guenonian Esoterism and Christian Mystery is the first major work to combine an analysis of Guenon's ideas about esoterism with a critical examination of their application to Christianity in terms of data provided by Christianity itself. But to accomplish this, such data cannot simply be surveyed superficially-it must be known firsthand; hence the abundance of citations and references in this text. Such an approach not only lets us decide about certain issues, but may also help us rediscover an all too misunderstood facet of the revelation of Christ. Jean Borella taught philosophy at the University of Nancy until 1995. A Platonist by formation, he has been strongly influenced by Guenon and Eastern metaphysics. But his deepest inspiration derives from unceasing meditation on the Christian faith, which led him to undertake the present searching critique of 'Guenonian Christianity'. A religious philosopher, he strives to hear the reverberations awakened in human thought by revelation. "Rene Guenon was one of the great metaphysical minds of the last few centuries, and it was a great loss to the Catholic Church when he converted to Islam. Prof. Borella shows in this landmark study exactly where Guenon's work remains of perennial value for Christians, but also demonstrates the limitations and personal idiosyncrasies which led Guenon to distort some of the most important elements of Catholic and Orthodox doctrine. Prof. Borella's book may well stimulate the recovery of authentic metaphysics within the Church for which Guenon longed, but which he despaired of seeing in his lifetime." -Stratford Caldecott Editor, Second Spring, Director (UK) of the G.K. Chesterton Institute for Faith & Culture"**

**Guadalupe: pulso y corazón de un pueblo Jul 24 2022 El Acontecimiento Guadalupano está íntimamente unido al proceso histórico de la formación de la conciencia católica en el continente americano. Casi 500 años después de aquel 1531, fecha del «encuentro de la Virgen de Guadalupe y Juan Diego», el Acontecimiento Guadalupano continúa siendo un hecho eficaz**

hoy, en cada uno de sus elementos y de sus personajes, incluso con la fuerza y debilidades de los antiguos personajes. Los documentos antiguos, empezando por el Nican Mopoha, han llamado al indio Juan Diego «el mensajero de Santa María»; él, a pesar de haber estado en la penumbra de los documentos históricos, continúa cumpliendo con su misión. Por ello el papa Juan Pablo II lo canonizó el 31 de julio de 2002, proponiéndolo como «evangelista y profeta» de aquel Acontecimiento, el Guadalupano, que está en el origen del proceso histórico evangelizador del Nuevo Mundo.

*Sábana Santa. Lo nunca contado Mar 08 2021 La Sábana Santa de Turín es uno de los objetos arqueológicos más estudiados e investigados por la Ciencia durante el siglo XX. Este apasionante enigma ha sido, y sigue siendo, motivo de polémica y discusión. Esta obra es el resultado de la rigurosa y extensa investigación de Santiago Vázquez sobre el Lienzo mortuario que pudo envolver el cadáver de Jesús de Nazaret en un sepulcro de Jerusalén en el año 33 de nuestra era. Un amplio estudio de la Sábana Santa que muestra, con enorme nitidez, la impronta -frontal y dorsal- de un hombre que fue brutalmente golpeado y torturado, flagelado, coronado de espinas, crucificado y, finalmente, alanceado en su costado derecho. ¿Es la auténtica mortaja de Jesús o nos encontramos ante una hábil falsificación medieval? Con información actualizada y de enorme interés, presenta, con todo detalle, dicho Sudario funerario, cuestionándose, por otra parte, si los Evangelios hablan de él o no, y recorriendo los lugares por donde pasó desde su salida de Jerusalén en el siglo I hasta su llegada a Turín en 1578. Revela los descubrimientos que la Ciencia ha realizado en sus numerosos estudios del tejido de lino, las torturas a las que fue sometido ese crucificado, así como las múltiples lesiones que contemplamos en su cuerpo. También expone las diferentes hipótesis que se han planteado para explicar de qué forma quedó "estampada" la imagen en el tejido y si puede ser una prueba de la Resurrección de Cristo. Analiza si el ajusticiado es Jesús de Nazaret o no. Muestra la opinión de la Iglesia Católica, así como la de otras confesiones religiosas. Refuta, detalladamente, todos los argumentos que se han presentado en contra de la autenticidad de la Síndone. Además, incluye una entrevista con D. Jorge Manuel Rodríguez (presidente del Centro Español de Sindonología), uno de los mayores expertos en la actualidad, aportando al lector un caudal de información apasionante y novedosa.*

*La Sábana Santa Jun 30 2020 La Sábana Santa, también conocida como el Sudario de Turín, la Síndone o el Santo Sudario, es una enigmática y controversial tela de lino que muestra la imagen de un hombre que presenta marcas y traumas físicos propios de una crucifixión, tal como le ocurrió hace más de 2000 años a Jesús de Nazareth. Como sucedió también en los días en que el Mesías recorría Galilea y Judea, las opiniones sobre esta tela se dividieron, y el odio que despertó Jesús en algunos, como la veneración en otros, se ha repetido en torno a esta reliquia. En este libro haremos un resumen de los hallazgos que los principales expertos nos han expuesto en trabajos publicados en muy diversos medios. Tales escritos abarcan toda una amplia gama de disciplinas, todas las que algo podrían aportar para resolver el enigma. El lector tendrá así un buen material para ejercer un juicio fundado y responder una pregunta crucial: ¿es Jesús de Nazareth el hombre de la Sábana Santa?*

*The Turin Shroud* Sep 26 2022 In this fully revised and updated edition, the bestselling authors of *The Templar Revelation* present new and compelling evidence linking Leonardo da Vinci with the forgery of Christianity's most famous relic. For centuries the Turin Shroud was believed to be Christ's authentic burial cloth, miraculously imprinted with his image -- but in 1988 carbon dating revealed it is a medieval- or Renaissance-era forgery. However, authors Lynn Picknett and Clive Prince realized that the 1988 discovery prompted even more questions: The image seems to be a photograph -- so could the Turin Shroud actually be the world's first photograph? If the face of the man on the Shroud is not Jesus', whose is it? Who had the sheer audacity to create what would become an infamous relic of Christianity, faking even Christ's holy, redemptive blood? Whoever did this was not only a genius but also a heretic... After more than a decade of research, Picknett and Prince have accumulated evidence that shows not only was the forger of the Turin Shroud none other than Leonardo da Vinci but also that he used his own face for that of Christ. The Turin Shroud is, among other things, a five-hundred-year-old photograph of Leonardo da Vinci. Could Christianity's greatest relic in fact be an attempt to undermine the religion itself?
