As a lecturer / trainer / tutor / assessor / curriculum manager, how do you ensure: 1. that all staff are clear about the type and methods of assessment available and how to adjust them to meet the needs of individual learners? 2. that learners are involved effectively in the assessment process and take responsibility for their own learning? 3. that the role and use of constructive feedback is understood and applied effectively and meets individual learners' needs? and 4. that staff are fully aware of the requirement to keep records of assessment and its implications for the continued success of the learning provider? This textbook addresses each of these questions, with supporting research as needed, while remaining tightly focused on the unit's assessment criteria. Enforcement of Foreign Arbitral Awards in Russia Jul 01 2022 Enforcement of Foreign Arbitral Awards in Russia presents issues peculiar to the Russian legal system and legal culture generally. The culmination of perhaps years of arbitration, enforcement of arbitral awards is a crucial element of arbitration and a subject best not taken lightly or left to the last minute. The Enforcement of Foreign Arbitral Awards in Russia parses the judgments of Russian courts, with a particular focus on the decision-making processes of Russian judges as reflected in their judgments. The Enforcement of Foreign Arbitral Awards in Russia addresses several questions, such as: • Which Russian courts enforce awards and what are they like? • What laws, treaties, and rules apply? • How do the courts reach their decisions? • Do those courts sometimes reach anomalous conclusions? • What should an applicant for enforcement watch out for? • What are the common pitfalls? With the help of Enforcement of Foreign Arbitral Awards in Russia non-Russian readers will be able to ask intelligent questions, earlier rather than later, of the local counsel who will be making an application for enforcement in the Russian courts.

A Nascent Common Law Nov 12 2020 In *A Nascent Common Law*, Frédéric Gilles Sourgens offers an account of the theoretical underpinnings of investor-state arbitration, a key growth field of international and transnational law.

Reconceptualising the Rule of Law in Global Governance, Resources, Investment and Trade Mar 05 2020 The relevance and importance of the rule of law to the international legal order cannot be doubted and was recently reaffirmed by the Declaration of the High-level Meeting of the General Assembly on the Rule of Law at the National and International Level's solemn commitment to it on behalf of states and international organizations. In this edited collection, leading scholars and practitioners from the fields of global governance, resources, investment and trade examine how the commitment to the rule of law manifests itself in the respective fields. The book looks at cutting-edge issues within each field and examines the questions arising from the interplay between them. With a clear three-part structure, it explores each area in detail and addresses contemporary challenges while trying to assure a commitment to the rule of law. The contributions also consider how the rule of law has been or should be reconceptualised. Taking a multi-disciplinary approach, the book will appeal to international lawyers from across the spectrum, including practitioners in the field of international investment and trade law.

The Formation and Identification of Rules of Customary International Law in International Investment Law Oct 24 2021 Rules of customary international law provide basic legal protections to foreign investors doing business abroad. These rules remain of fundamental importance

today despite the growing number of investment treaties containing substantive investment protection. In this book, Patrick Dumberry provides a comprehensive analysis of the phenomenon of custom in the field of international investment law. He analyses two fundamental questions: how customary rules are created in this field and how they can be identified. The book examines the types of manifestation of State practice which should be considered as relevant evidence for the formation of customary rules, and to what extent they are different from those existing under general international law. The book also analyses the concept of States' opinio juris in investment arbitration. Offering guidance to actors called upon to apply customary rules in concrete cases, this book will be of significant importance to those involved in investment arbitration.
