Why We Want You to Be Rich Jan 14 2021 Discusses the importance of financial education and offers advice for using financial literacy to increase wealth.

*Rich Dad's Guide to Becoming Rich...Without Cutting Up Your Credit Cards* Sep 21 2021 Why cutting up your credit cards won't make you rich A popular TV personality often says, "Take out your credit cards and cut them into pieces." While that is sound advice for people who are not financially responsible, it is inadequate advice for anyone who wants to become rich or financially free. In other words, just cutting up your credit cards will not make you rich. What does make you rich is financial education...unfortunately a type of education we do not receive in school. If a person has a solid financial education, they would know that there are two kinds of debt...good debt and bad debt. A person with a sound financial education would know how to use good debt to make them richer faster...much faster than a person who only saves money and has no debt. Rich Dad's Guide to Becoming Rich \* Are you in credit card debt? \* Is job security dead? \* Is your financial security threatened? \* Is a high-paying job the answer? \* Is your money working for you? \* Do you have good debt or bad debt? We all need more financial education. We need to know how to have our money work hard for us so we

don't have to spend our lives working for money. That is why we need more sophisticated financial education...not oversimplified and childish financial tips such as cut up your credit cards or save more money. If you are ready to increase your financial education and enjoy your credit cards, then this book is for you.

In this book, the reader will learn the answers Robert found on his life-long search, after repeatedly asking the question, "When will we learn about money?" In this book, the reader will find out why real financial education may never be taught in schools. In this book, the reader will find out "What financially education is... really."

**The Millionaire Fastlane** Oct 11 2020 10TH ANNIVERSARY EDITION Is the financial plan of mediocrity -- a dream-stealing, soul-sucking dogma known as "The Slowlane" your plan for creating wealth? You know how it goes; it sounds a lil something like this: "Go to school, get a good job, save 10% of your paycheck, buy a used car, cancel the movie channels, quit drinking expensive Starbucks mocha lattes, save and penny-pinch your life away, trust your life-savings to the stock market, and one day, when you are oh, say, 65 years old, you can retire rich." The mainstream financial gurus have sold you blindly down the river to a great financial gamble: You've been hoodwinked to believe that wealth can be created by recklessly trusting in the uncontrollable and unpredictable markets: the housing market, the stock market, and the job market. This impotent financial gamble dubiously promises wealth in a wheelchair -- sacrifice your adult life for a financial plan that reaps dividends in the twilight of life. Accept the Slowlane as your blueprint for wealth and your financial future will blow carelessly asunder on a sailboat of HOPE: HOPE you can find a job and keep it, HOPE the stock market doesn't tank, HOPE the economy rebounds, HOPE, HOPE, and HOPE. Do you really want HOPE to be the centerpiece for your family's financial plan? Drive the Slowlane road and you will find your life deteriorate into a miserable exhibition about what you cannot do, versus what you can. For those who don't want a lifetime subscription to "settle-for-less" and a slight chance of elderly riches, there is an alternative; an expressway to extraordinary wealth that can burn a trail to financial independence faster than any road out there. Why jobs, 401(k)s, mutual funds, and 40-years of mindless frugality will never make you rich young. Why most entrepreneurs fail and how to immediately put the odds in your favor. The real law of wealth: Leverage this and wealth has no choice but to be magnetized to you. The leading cause of poorness: Change this and you change everything. How the rich really get rich - and no, it has nothing to do with a paycheck or a 401K match. Why the guru's grand deity - compound interest - is an impotent wealth accelerator. Why the guru myth of "do what you love" will most likely keep you poor, not rich. And 250+ more poverty busting distinctions... Demand the Fastlane, an alternative road-to-wealth; one that actually ignites dreams and creates millionaires young, not old. Change lanes and find your explosive wealth accelerator. Hit the Fastlane, crack the code to wealth, and find out how to live rich for a lifetime.

*More Important Than Money* Jun 06 2020 Many people have million-dollar ideas. They're confident that their new product or service or innovation will make them rich and that all their dreams will come true. The problem is: Most people don't know how to turn their million-dollar idea into millions of dollars. According to many social scientists, the most important thing in life is a person's social and professional network. In other words, the people around us--our associates, our team, our friends. The people we surround ourselves with--and the people we go to for advice and guidance--can mean the difference between success and failure. And as he taught in *Rich Dad Poor Dad*, if the people around you have a poor person's mindset, it's likely that you'll be, or stay, poor. Your team, in life and in business, will determine if your million-dollar idea will give you a million-dollar payday. In *More Important Than Money*, Robert teams up with his most trusted Advisors who contribute not only chapters on the strengths and talents they bring to the team, but offer candid and insightful individual Profiles and excerpts from each of the 14 *Rich Dad Advisor Series* books. Readers will meet all of Robert's *Rich Dad Advisors* and learn why they are among his most valuable assets.

The Last Safe Investment Sep 09 2020 The case for investing in your own career before anything else Michael Ellsberg and Bryan Franklin think you've been fed a lie: that if you save for decades and invest in 401(k)s, IRAs, and a home, these investments will grow steadily over decades, allowing twenty to thirty years of secure, peaceful retirement. This might have been true at some point in the last century, but it is not true any longer. If you want to get ahead and enjoy a life of prosperity, the authors argue that you must invest in the most powerful source of wealth you'll ever know: your own earning power. Ellsberg and Franklin reveal how investing in yourself in various ways can guarantee a return much higher than the stock market or real estate. Boosting your skills, leadership, persuasion ability, and your network enriches the quality and meaning of your life at the same time that it enriches your wallet. Why wouldn't you bet on yourself?

**Rich Dad, Poor Dad** May 18 2021 Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

Millionaire by Thirty Apr 04 2020 Most people know that there are 70 million Baby Boomers in America today....but what is less known is that there are approximately 100 million people in America between the ages of 16 and 30. This generation has just entered, or will soon be entering the work force. And they have no idea how to invest, save, or handle their money. Young people today come out of school having had little or no formal education on the basics of money management. Many have large debts from student loans looming over their heads. And many feel confused and powerless when their pricey educations don't translate into high paying jobs. They feel that their \$30,000-\$40,000 salary is too meager to bother with investing, and they constantly fear that there will be "too much month left at the end of their money." Douglas R. Andrew has shown the parents of this generation a different pathway to financial freedom. Now Doug and his sons, Emron and Aaron - both of whom are in their mid-20s - show the under-30 crowd how they can break from traditional 401k investment plans and instead can find a better way by investing in real estate, budgeting effectively, avoiding unnecessary taxes and using life insurance to create tax-free income. With the principles outlined in *Millionaire by Thirty*, recent graduates will be earning enough interest on their savings to meet their basic living expenses by the time they're 30. And by the time they're 35, their investments will be earning more money than they are, guaranteeing them a happy, wealthy future.
