Discourses of Helping Professions Sep 29 2019 Discourses of Helping Professions brings together cutting-edge research on professional discourses from both traditional helping contexts such as doctor-patient interaction or psychotherapy and more recent helping contexts such as executive coaching. Unlike workplace, professional and institutional discourse – by now well established fields in linguistic research – discourses of helping professions represent an innovative concept in its orientation to a common communicative goal: solving patients' and clients' physical, psychological, emotional, professional or managerial problems via a particular helping discourse. The book sets out to uncover differences, similarities and interferences in how professionals and those seeking help interactively tackle this communicative goal. In its focus on professional helping contexts and its inter-professional perspective, the current book is a primer, intended to spark off more interdisciplinary and (applied) research on helping discourses, a socio-cultural phenomenon that is of growing importance in our post-modern society. As such, it is of great relevance for discourse researchers and discourse practitioners, caretakers and social scientists of all shades as well as for everybody interested in helping professions.

Social Class and Classism in the Helping Professions Mar 28 2022 Social Class and Classism in the Helping Professions is a supplementary text that is intended for courses in multicultural counseling/prejudice, which is found in departments of counseling, psychology, social work, sociology and human services. The book addresses a topic that is highly relevant in working with minority clients, yet has not received adequate treatment in many core textbooks in this arena. This book provides a thorough overview of mental health and social class and how social class and classism affect mental health and seeking treatment. Social class and classism cut across all racial and ethnic minority groups and is thus an important factor that needs to be highly considered when working with diverse clients. The book examines the differences among poverty, classism and inequality and how it affects development across the life span (from infancy through the elder years). Most importantly, the book offers concrete, practical recommendations for counselors, students, and trainees.

Issues and Ethics in the Helping Professions Sep 09 2020 This contemporary, comprehensive, and practical text helps you discover and determine your own guidelines for helping within the broad limits of professional codes of ethics and divergent theoretical positions. This text is the relied-upon, essential text for students in any helping field—the book many students return to well into their professional careers. The authors raise what they consider to be central issues, present a range of diverse views on the issues, discuss their position, and present opportunities for you to refine your own thinking and actively develop your own informed position. Questions explored include: What role do the therapist's personal values play in the counseling relationship? What ethical responsibilities and rights do clients and therapists have? What considerations are involved in adapting counseling practice to diverse client populations? and more.

Thriving! Aug 21 2021 Written in a conversational and engaging style, this updated and expanded Third Edition of *Thriving!* helps future counselors and therapists to succeed in their training and professional development throughout their graduate careers. Authors Lennis G. Echterling, Jack Presbury, Eric Cowan, A. Renee Staton, Debbie C. Sturm, Michele Kielty, J. Edson McKee, Anne L. Stewart, and William F. Evans collaborated to create an informative and inspirational book that includes an overview of the literature, personal accounts from students, practical tips/activities, and the latest coverage of such topics as advances in neuroscience research, crisis intervention, and more!

The Professional Counselor Jun 30 2022 Written for the counselling student who is entering the experiential phase of training, this text provides a conceptual structure for viewing the counselling process, and examines each part of that structure in depth, addressing necessary counselling skills.

Staff Support Groups in the Helping Professions Jan 26 2022 Staff burnout and work-related stress in mental health professionals cost the National Health Service not only millions of pounds each year, but also impact upon the welfare of those being cared for. Staff Support Groups in the Helping Professions takes the lead from recent Department of Health initiatives, promoting the use of staff support groups to foster emotional resilience, deal with potential conflict and support reflective practice. In this book Hartley, Kennard and their contributors explore the influences that help and hinder the setting up and running of staff support groups, and attempt to counter the often negative reactions that the term 'staff support' can evoke. They demonstrate that such support groups can be a sophisticated and valuable intervention that needs careful preparation and skilful management to succeed, and will in turn not only benefit the individual, but also the department as a whole and those that they care for. Contributors share their experiences of facilitating support groups in a number of settings including: psychiatric wards therapeutic communities social services schools children's homes. Containing a wealth of case material, Staff Support Groups in the Helping Professions will provide much-needed guidance for those professionals attending, managing, or in the process of setting up a staff support group.

Physical Change and Aging, Sixth Edition Jun 26 2019 "[This book] has been honed into an elegant compendium. This outstanding work should be widely read -- it is perhaps the best example of an integrative approach to gerontology." Score: 94, 4 stars --Doody's This sixth edition of a classic multidisciplinary text for students of gerontology continues to offer practical, reader-friendly information about the physical changes and common pathologies associated with the aging process. It places special emphasis on the psychological and social implications of these changes in the lives of older adults. The book is distinguished by its thorough focus on anatomy and physiology and common health problems pertaining to each body system. This latest edition has been thoroughly updated to present new research findings that differentiate "normal" aging from actual pathology. It provides new data and guidelines on risk factors, nutrition, preventive measures, interventions, and commonly prescribed medications, and includes expanded treatment of complementary and alternative therapies. The book emphasizes the positive aspects of aging and demonstrates how the elderly population can gain greater personal control, through lifestyle changes and preventative health strategies, toward the goal of optimal aging. The book also includes an updated discussion of grief, ethical issues, and funeral options. Written for students of gerontology, social work, human services, nursing, occupational and physical therapy, counseling, and elder law, it presents information that is clearly understandable for those without an extensive background in biology or medicine. The book reinforces information with practical applications of aging data. *Physical Change and Aging, Sixth Edition* comes with instructor materials, including PowerPoint presentations and test banks for each chapter. An eBook format for *Physical Change and Aging* is also available. This sixth edition includes new information on: Genetic/DNA theories Dementia and Parkinson's Disease Immunotherapy Lifelong health disparities Pet-assisted therapy Prayer and meditation Pharmacogenetics Gerogogy (self-directed learning) health as public health issue Natural funerals (biodegradable caskets, burial urns, dying at home)

Improving the Effectiveness of the Helping Professions Feb 24 2022 The current practice of counselling, psychotherapy, and most helping professions often relies on clinical wisdom with little evidence of what actually works. Clinical wisdom is often a justification for beliefs and values that bond people together as professionals but often fails to serve clients since many of those beliefs and values may be comforting, but they may also be inherently incorrect. *Improving the Effectiveness of the Helping Professions: An Evidence-Based Approach to Practice* covers the use of research and critical thinking to assist helping professionals make the most effective choices in treating clients with social and emotional problems. The use of evidence-based practice (EBP) comes at a time when managed care and concerns over health care costs coincide with growing concerns that psychotherapy, case management, and counseling may not be sufficiently effective ways of helping people in social and emotional difficulty.

Social Class and the Helping Professions Apr 28 2022 This book provides a comprehensive examination of the intersection of social class and the helping professions, including examinations of the role of social class in American culture, classism, social class and mental health, and the American Dream. It will be a valuable tool for practitioners in a variety of mental health professions, providing a clearer understanding of social class as it relates to themselves and their clients. The first section contains an introduction to the global, historical, and sociological aspects of class and an in-depth look at urban and rural poverty, the middle class, and the upper class and economic privilege. The reader will find not only an examination of these social constructs, but also an opportunity to examine their own experience with social class. The next section brings the reader into the world of their clients in more specific ways, examining the role social class plays in mental health and mental health counseling, in the family structure and in counseling families, and in the experiences people have throughout the educational process and in schools. Finally, the last section of the book discusses specific techniques and models to use in the reader's clinical practice, including how to assess clients' experiences of class and classism and how these experiences have shaped their worldview and view of the self. Case studies throughout demonstrate fair and accurate diagnosis, assessment, and treatment.

Issues and Ethics in the Helping Professions Mar 04 2020 For over 20 years, Corey, Corey, and Callanan's practical, accessible text has helped readers like you gain the knowledge and skills they need to make important ethical decisions. By coupling a solid foundation in helping professions theories and codes of ethics with anecdotes and advice based on their professional experience, the authors teach central ethical issues from a number of diverse perspectives. With this comprehensive, timely coverage, you'll be able to develop an internalized, personal perspective that you can apply when dealing with the range of ethical dilemmas you are likely to encounter.

Motivational Interviewing for Leaders in the Helping Professions Oct 30 2019 Written expressly for leaders in health care and the social services, this accessible book shows how motivational interviewing (MI) can transform conversations about change within an organization. The authors demonstrate powerful ways to use MI to generate solutions and get employees and organizations unstuck, whether mentoring a staff member in a new role, addressing performance problems, or redesigning procedures or programs. Readers are guided to skillfully and ethically apply the core MI processes--engaging, focusing, evoking, and planning--in the management context. User-friendly features include reproducible worksheets, end-of-chapter self-reflection exercises, and extended case vignettes. Purchasers get access to a companion website where they can download and print these materials in a convenient 8 1/2" x 11" size. This book is in the Applications of Motivational Interviewing series, edited by Stephen Rollnick, William R. Miller, and Theresa B. Moyers.

Conflict Resolution for the Helping Professions Feb 01 2020 Barsky's hands-on text provides the theory, skills, and exercises to prepare readers for an array of conflict situations. It encourages developing professionals to see themselves as reflective practitioners in the roles of negotiators, mediators, advocates, facilitators, and peacebuilders. Readers will learn how to analyze conflict situations and develop theory-based strategies that can be used to intervene in an ethical and effective manner. Examples and exercises demonstrate how to apply conflict resolution skills when working with individuals, families, groups, organizations, and diverse communities. *Conflict Resolution for the Helping Professions* is the only current conflict resolution textbook designed specifically for social work, psychology, criminal justice, counseling, and related professions.

Clinical Supervision in the Helping Professions Nov 04 2022

Being White in the Helping Professions Apr 04 2020 In this reflective yet practical book, the author challenges white helping professionals to recognize their own cultural identity and the impact it has when practising in a multicultural environment. Judy Ryde reveals how white people have implicit and explicit advantages and privileges that often go unnoticed by them. She suggests that in order to work effectively in a multicultural setting, this privilege needs to be fully acknowledged and confronted. She explores whether it is possible to talk about a white identity, addresses uncomfortable feelings such as guilt or shame, and offers advice on how to implement white awareness training within an organization. Ryde offers a model for 'white awareness' in a diverse society and provides concrete examples from her own experience. This book is essential reading for students and practitioners in the helping professions, including social workers, psychotherapists, psychologists, counsellors, healthcare workers, occupational therapists and alternative health practitioners.

Racism in the United States Jul 28 2019 "This text fills an enormous gap in the field. The interactive style makes it accessible to both graduate and undergraduate students, providing thought-provoking insight into a complex topic. Of special note is the book's contemporary focus on social identity formation and intersectionality. Through exercises and examples, it encourages self-awareness and strategies to help students engage in dialogues about racism." -- Donna Harris, LCSW, Bryn Mawr College "In this timely revision, Miller and Garran offer an insightful and comprehensive guide for critical practice. The book's unambiguous attention to the impact of power and structural oppression on individuals, organizations, and communities is thoughtfully paired with accessible clinical case examples and applications." --Hye-Kyung Kang, Seattle University "Miller and Garran provide a clear, comprehensive, and accessible guide to understanding and addressing racism. It is filled with useful conceptual frameworks, exercises, and tools for helping professionals and others concerned about racial equity." --Diane J. Goodman, EdD, Diversity Consultant This comprehensive text thoroughly reviews the theories and history of racism, the sociology of and the psychology of racism, intergroup relations and intergroup conflict, and how racism is manifested institutionally, between groups, and between people, providing a unique view of the connections between these multiple perspectives. Readers can then apply this knowledge to their work as helping professionals. Students learn to explore their own biases and how they influence their view of themselves and others, which strengthens their work with future clients. Fulfilling NASW and CSWE cultural competency requirements, this book teaches socially just practices to helping professionals from any discipline. Many people want to dismantle racism but they do not know how. This book gets us closer to that goal. Using critical race theory as a conceptual framework, the text analyzes all levels of racism: personal, professional, institutional, and cultural. Integrating theory, research, and practice, racism is linked to other forms of oppression with an emphasis on how helping professionals can respond. Tips on how to facilitate racial dialogues are provided. Early chapters map out the contours of racism and later chapters emphasize how to dismantle it. Readers appreciate the book's sensitive approach to this difficult topic. Examples and exercises encourage insight into understanding racism, and insightful analyses offer strategies, solutions, and hope. Readers learn to respond to racism in all contexts including working with individuals, families, groups, organizations, and communities. New to the Second Edition: Reflects recent sociopolitical changes including "Islamophobia," the Obama presidency, the murders of young men of color by police, the racialization of the criminal justice system, and current immigration issues in its analysis of racism. More cases and experiential exercises help readers explore how racism is manifested and how to incorporate the lessons learned into future working environments. More emphasis on the intersectionality of racism and other social oppressions including class, gender, sexual orientation, citizenship, immigration experiences, and disability to give readers a better understanding of the relationship between these issues. PowerPoints and Instructor's Manual with sample syllabi, teaching tips, and suggested videos and related websites. An ideal text for advanced courses on racism, oppression, diversity, prejudice and discrimination, or racism and professional practice, this book also appeals to helping professionals (social workers, psychologists, counselors, and nurses) who need to understand racism to better serve their clients.

Effective Supervision for the Helping Professions Nov 11 2020 Using features such as case studies, exercises and points for reflection, this is an ideal introduction to managing the supervisory relationship for both trainee and supervisor. This second edition of the book formerly titled *Counselling Supervision* now covers new and contemporary areas of supervision such as ethical maturity, insights into supervision from neuroscience, the organisational demands from the various contexts in which supervision takes place. It widens the concept of supervision to include professions such as coaching, organisational development consulting, counselling and psychology.

Skills and Strategies for the Helping Professions Aug 01 2022 Providing a guide for beginning counselors, this work gives the techniques to use in clinical situations. It shows characteristics of good helping relationships; details verbal and nonverbal skills; includes evaluation and ethics; explains helping theories and research; and explores client concerns.

Grief and Loss Jul 08 2020 Provides a variety of case examples applying theory to practice when working with those dealing with grief and loss. Grief and Loss: Theories and Skills for the Helping Professions, 2/e, allows readers to see how essential theories and skills will enhance their own practice. They will gain the core knowledge and skills needed to work with individuals, families, groups, and communities who are experiencing loss and the grief that accompanies it. Culture, spirituality, age, gender and other factors that influence grief reactions are discussed, helping readers understand and work with diverse populations. Individual and programmatic responses to grieving people are also included. Each chapter contains exercises that encourage readers to apply the concepts learned and MySocialWorkLab includes a variety of Internet resources and supplemental learning tools. Learning Goals Upon completing this book, readers should be able to: Acquire core knowledge and skills that will prepare readers to work with individuals, families, groups, and communities who are experiencing loss and the grief that accompanies it Understand normal and complicated grief reactions Identify actual as well as symbolic losses Recognize the factors the positively and negatively influence grief reactions Understand the resources and interventions that are effective in helping those who are grieving Note: MySocialWorkLab does not come automatically packaged with this text. To purchase MySocialWorkLab, please visit: www.mysocialworklab.com or you can purchase a valuepack of the text + MySocialWorkLab (at no additional cost). VP: 0205206816

EBOOK: Supervision in the Helping Professions Jul 20 2021 "Supervision in the Helping Professions remains a core text in our trainings and we welcome the updates, including the increased focus on ethics and diversity, the discussion of e-enabled modes of supervision and the review of research. What is so encouraging to students, trainers and practitioners is the 'beginner's mind' with which the authors continue to approach the subject, their tireless enthusiasm for enquiry, and their commitment to the learning edge. The launch of this edition coincides with the launch of the first UKCP Professional Register for Supervisors. The authors have done much to promote the development of supervision, and all future professional trainings in supervision will rely on their wisdom and experience. Key words for this edition are sustainability, resourcing and deeper levels of self reflection - mirroring the movement of our profession which increasingly turns outwards, asking how we can effect societal as well as individual change." Tree Staunton, Director of Studies, Bath Centre for Psychotherapy and Counselling, and Chair of the Humanistic and Integrative College of UKCP "This book remains a seminal text in supervision. In the fourth edition the authors bring a contemporary perspective to bear on supervision with an emphasis on the wider contextual and cultural contexts of our work as supervisors. I appreciate above all the 'fearless compassion' with which the authors have addressed the challenges that face us as supervisors in a global culture, and at the same time their ongoing stress on integrating the 'emotional and the rational, the personal and the organizational' in a very accessible model of supervision." Professor Maria Gilbert, Metanoia Institute, West London This bestselling book provides a comprehensive guide to supervision for professionals across the social care and helping professions, as well as those working in education, coaching and human resources. Thoroughly updated, the book has a new introduction showing how the world context in which helping professions operate has fundamentally changed in the last 25 years and the implications of this for supervision. The seven-eyed supervision model at the core of the book has been expanded and developed to reflect its use in many professions and different parts of the world. The authors also incorporate viewpoints from other academics and practitioners who have commented on the model. New to this edition: A new chapter on ethics and handling difficult situations in supervision A new chapter and new models of reflective practice New material on training supervisors, including the important area of supervision of supervision Revised chapters on group and team supervision, with new material on supervising team development and team coaching More case studies of supervision in a wide range of different professions Further practical advice for supervisees on how to recognize, contribute to and ask for good supervision With contributions from Judy Ryde and Joan Wilmot.

Developing Online Learning in the Helping Professions Dec 01 2019 This hands-on guide addresses the unique challenges of educators in the helping professions who have minimal or no experience with online technologies. Written for online instructors, clinical faculty, program directors, administrators, and other educators, it describes practical and effective ways to teach material that is intrinsically based on face-to-face interaction through mediated means. Grounded in research and the expertise of authors with years of online teaching experience, the book moves from the basics of online course delivery to more complex arenas such as preparing both instructors and students to effectively transition to online learning. The book examines a variety of online designs uniquely suited to courses in the helping professions, including such platforms as Blackboard Collaborate, Blackboard Vista, and Moodle. Moving beyond lecture-level education, the text discusses online supervision of students who are beginning field and clinical experiences, as well as ethical considerations when teaching and supervising online. Replete with abundant tips, reflective questions, checklists, timelines, and vignettes, the text also includes an entire chapter devoted to overcoming fears of the online environment for both instructor and student. KEY FEATURES: Addresses the unique needs and concerns of online teaching and training in the helping professions Provides examples of course content at multiple levels and practice settings Includes practical tips, reflective questions, checklists, course design timelines, and vignettes to support the reader at all stages of teaching online Defines key terms and definitions Considers common pitfalls to avoid

Ethical Maturity in the Helping Professions Nov 23 2021 Most practitioners head for codes of ethics and ethical frameworks to help them resolve ethical issues and dilemmas. They go 'outside' rather than 'inside'. Ethical Maturity in the Helping Professions suggests a different approach that views ethical codes and frameworks as the first stepping stone to a higher ethic - an ethic of fidelity, relationships, and trust. Building on Rest's four components of ethical practice, Michael Carroll and Elisabeth Shaw propose six components that together make up what they call 'ethical maturity' or practical ethical wisdom. Born from who we are, and fashioned on the anvil of experience and knowledge, the book challenges helping professionals to review what they mean by ethics and suggests they step up to a higher ethic of relational accountability.

Professional Burnout in Medicine and the Helping Professions Jan 02 2020 Physicians and other helping professionals have created a practical, hands-on book that will aid in the identification and reduction of job stress. Nurses, physicians, thanatologists, and psychotherapists are among the growing number of health care professionals whose physical and mental health are being severely affected by work stress. This unique volume achieves what no earlier book has attempted for this specialized professional group. It offers a thorough understanding of professional burnout, elaborating how burnout develops and offering a model with which to identify job stressors. Professional Burnout in Medicine and the Helping Professions also offers an in-depth exploration of stress and burnout issues from the perspectives of specific medical and helping profession disciplines--physicians, nurses, social workers, psychotherapists, teachers, consultants, agency and hospital workers, funeral directors, and more. Experts in these fields examine the values, ethics, and morality of individuals, health care organizations, and society that may lead to burnout. This in-depth and highly practical volume identifies the stages of disillusionment and offers successful intervention strategies for recognizing the signs and reducing or efficiently managing causative factors.

The Helping Professions Aug 28 2019 This handy book is a valuable resource for helping readers decide on a career path, this sourcebook provides essential background information on the scope of human services and the essential aspects involved in choosing a career.

Skills for Helping Professionals Sep 21 2021 Written specifically for non-clinical undergraduate students, but also relevant to graduate studies in helping professions, Skills for Helping Professionals, by Anne M. Geroski focuses on helping students develop the skills they need to effectively initiate and maintain helping relationships. After exploring the literature identifying critical components of helping relationships and briefly reviewing developmental and helping theories, the text covers such topics as the helping process, self-awareness, and ethics in helping, and then focuses on specific helping skills such as listening and hearing, empathy, reflecting, paraphrasing, questioning, clarifying, exploring, and offering feedback, encouragement, and psycho-education. The final chapters focus on individuals in crisis and helping in groups.

Helping Relationships Dec 13 2020 A humanistic approach is used to cover basic concepts in helping. Text conveys pertinent concepts from modern psychology in an easy-to-read and understandable style, and shows the relevance of these concepts to the helping profession. Courses in Educational Psychology, Introduction to Counseling, Human Relations.

Transformational Leadership for the Helping Professions Feb 12 2021 Twenty-first-century challenges abound for people in leadership roles in the helping professions (i.e., social work, nursing, teaching, public health, and social services). It is the mission of these professionals to facilitate change not only for consumers of their work, but also for organizations and communities. While many books written for human services leaders focus on leadership roles and tasks, Transformational Leadership for the Helping Professions explores growth in leadership, coupled with key competencies. The text also combines both classic and current theories on leadership, with a philosophical lens on its meaning and practice in human services settings. Social workers, nurses, teachers, public health workers, and community leaders will find the text to be a useful guide in strengthening their consideration of leadership theory while they practice in day-to-day work. Additionally, educators and students of leadership in the helping professions will gain a solid understanding of key facets of leadership practice within a framework that inspires a social justice, empowerment, and cultural humility perspective.

The Role of the Helping Professions in Treating the Victims and Perpetrators of Violence Jan 14 2021 This helping professions text provides a broad-based understanding of the reasons for violent behavior and offers treatment strategies to help victims as well as perpetrators of violence. Among the many types of violence covered in the text are school violence, random violence, workplace violence, domestic violence, and violence against inmates. The text also includes coverage of September 11th and the resulting economic downturn, which could lead to increased crime, domestic violence, and drug abuse... Covers PTSD for victims of September 11th and other terrorist events.

Power in the Helping Profession Dec 25 2021 In this concise book, Guggenbühl-Craig teaches analysts how to be aware of the subtle abuses of authority that can occur during therapy and counseling.

Spirited Practices Oct 11 2020 Spirituality and religion are fundamental to all human cultures. Yet in the helping professions, whose shared objective is to promote human well being, questions of spirituality have often been avoided. Now we are increasingly realizing that scientific materialism and individuality have failed to meet enduring human needs for meaning and connection. Evidence mounts for the importance of spirituality for prevention and intervention in times of crisis, distress and illness. Many professionals find themselves ill-prepared to respond to the spiritual needs of their clients, and to negotiate encounters with people from unfamiliar faith traditions. Spirited Practices shows how it is possible for professionals to think critically, and be open to spirituality at the same time. Professionals and teachers from diverse faiths and fields of work, including social work, health, psychology and ministry explain how they have integrated spirituality into their work. Spirited Practices is inspiring reading for anyone in the helping professions seeking to develop a spiritually aware practice. 'It invites us to look honestly at ourselves and our own practices through learning about those from other professional and faith backgrounds.' Richard Hugman, Professor of Social Work, University of NSW 'A much needed forum for practitioners from diverse professional and spiritual backgrounds to address the challenges and rewards of spiritually-sensitive practice.' Leola Dyrud Furman, Associate Professor Emeritus of Social Work, University of North Dakota

Issues and Ethics in the Helping Professions, Updated with 2014 ACA Codes (Book Only) Sep 02 2022 This contemporary, comprehensive, and practical text helps you discover and determine your own guidelines for helping within the broad limits of professional codes of ethics and divergent theoretical positions. This text is the relied-upon, essential text for students in any helping field-the book many students return to well into their professional careers. The authors raise what they consider to be central issues, present a range of diverse views on the issues, discuss their position, and present opportunities for you to refine your own thinking and actively develop your own informed position. Questions explored include: What role do the therapist's personal values play in the counseling relationship? What ethical responsibilities and rights do clients and therapists have? What considerations are involved in adapting counseling practice to diverse client populations? and more.

Codes of Ethics for the Helping Professions Aug 09 2020 This brief supplement offers students a handy resource that contains codes of ethics for the various professional organizations. Available for packaging with this textbook at a nominal price.

Being White in the Helping Professions May 30 2022 In this reflective yet practical book, the author challenges white helping professionals to recognize their own cultural identity and the impact it has when practising in a multicultural environment. Judy Ryde reveals how white people have implicit and explicit advantages and privileges that often go unnoticed by them. She suggests that in order to work effectively in a multicultural setting, this privilege needs to be fully acknowledged and confronted. She explores whether it is possible to talk about a white identity, addresses uncomfortable feelings such as guilt or shame, and offers advice on how to implement white awareness training within an organization. Ryde offers a model for 'white awareness' in a diverse society and provides concrete examples from her own experience. This book is essential reading for students and practitioners in the helping professions, including social workers, psychotherapists, psychologists, counsellors, healthcare workers, occupational therapists and alternative health practitioners.

Essential Interviewing Skills for the Helping Professions Oct 23 2021 Essential Interviewing Skills for the Helping Professions reaches beyond most other essential skills for clinical interviewing books with its emphasis on social justice, attention to the role of microaggressions in clinical practice, and the utmost importance of practitioner wellness as integral to longevity in the helping professions. Each chapter addresses interviewing skills that are foundational to the helping professions from mental health to physical health, includes detailed exercises, addresses social justice, and discusses practitioner wellness opportunities. Sometimes clients' stories are fraught with trauma, other times their stories are bound within generations of substance addiction or family violence, while other clinical stories present personal and social obstacles that arise from years of oppression at the hands of prejudice and discrimination. This book therefore goes beyond the basic ideas of choosing when to use an open question or to reflect emotions by covering how to integrate social justice and knowledge of power, privilege, and oppression into the interviewing arena. Essential interviewing skills require the practitioner to not only purposefully listen to the client's story, but also to be self-aware and willing to acknowledge mistakes and learn from them. The work of the clinical interviewer is a continuous challenge of balancing listening, responding, action, and self-awareness, and this book is designed to help.

Burn-out Mar 16 2021 Outlines the stages of disillusionment and frustration that often develop in social workers, suggests the causes, and describes several possible solutions.

Power in the Helping Professions Oct 03 2022 In this concise book, the widely respected Jungian analyst Adolf Guggenbühl-Craig teaches us how to be aware of the subtle abuses of authority that can occur during therapy and counseling.

Interviewing for the Helping Professions Jun 06 2020 Revised edition of Interviewing for the helping professions, [2014]

Interviewing for the Helping Professions Apr 16 2021 Conducting a successful professional interview is more than an exercise of technical skills. The specific approach an interviewer takes with any client should be informed by the interviewer's understanding of the client's needs and preferences exhibited within the developing relationship. Interviewing for the Helping Professions promotes a theory-driven, relational approach to professional interviewing across disciplines. The author's aim is to organically illustrate the theories and techniques of interviewing within the context of building and utilizing the therapeutic relationship. The author uses example interviews to illustrate the variety of settings, clients, and issues interviewers encounter. Each interview is fully annotated with the theory and practice skills being exhibited. The emphasis on theory allows the reader to fully understand the underlying principles of interviewing, encouraging them to be present and in-the-moment with their clients. This comprehensive book is an indispensable resource for practice courses in counseling, human services, psychology, and social work programs.

Touch in the Helping Professions Jun 18 2021 Touch may well be one of the least understood or talked about subjects in the helping professions. A discussion on the importance and ethics of positive, caring, and appropriate touch in professions such as teaching, nursing and counselling is long overdue. Touch in the Helping Professions delivers just that, weaving together scholarly evidence, research and clinical practice from a wide range of perspectives encompassing philosophy, theology, psychology, and anthropology to challenge assumptions about the role of touch in the helping professions. The contributors to the volume focus not only on the overarching roles of gender, age, culture and life experience, but go beyond to encompass canine-assisted therapy, touch deprivation, sacred objects, as well as key ethical considerations. The prevailing lack of dialogue, due to fear of contravening ethical boundaries, has stood in the way of an open and responsible discussion on the use of touch in therapy. Touch in the Helping Professions is a welcome and much needed contribution to the field—a window onto a fundamental need. This book is published in English. - Cet ouvrage offre un ensemble de données probantes et de résultats cliniques à l'appui du toucher dans le développement physique et émotionnel. Il est structuré selon trois axes : la théorie sur le toucher; la pratique du toucher dans un contexte de thérapie, et les questions éthiques. Il aborde la question du rôle du genre, de l'âge, de la culture et de l'expérience de vie, des sujets comme la zoothérapie, la privation sensorielle, des objets sacrés, et des considérations d'ordre éthique. Les approches variées – philosophie, théologie, psychologie, anthropologie – remettent en question les présuppositions, offrent un contexte historico-culturel professionnel, et font appel à des données primaires. Les collaborateurs soutiennent que le toucher sain et non sexuel n'est pas suffisamment enseigné dans le cadre de la formation professionnelle. Cette absence de dialogue – engendrée par la crainte de dépasser des bornes éthiques, fait en sorte qu'une discussion ouverte et responsable sur l'utilisation du toucher dans un cadre thérapeutique ne peut avoir lieu, alors même qu'elle contribuerait aux balises théoriques de notre compréhension de cet enjeu fondamental. Ce livre est publié en anglais.

Supervision in the Helping Professions 5e May 06 2020 "A practical and empowering guide. The integration of old and new material from therapeutic, systemic, and organisational thinking provides a distinctive and deep foundation for an exceptionally broad account of the key tasks and major methods of supervision." —Derek Leslie Milne, Fellow of The British Psychological Society, UK "An excellent book that provides timely and important information – highly recommended for supervisors across all helping professions." —Tony Rousmaniere, Clinical Faculty, University of Washington, USA "No bookshelf on supervision or coaching is complete without this core book, which is insightful, challenging and bang up-to-date. With new, important material, a wise book just got wiser." —Eve Turner, Chair, Association of Professional Executive Coaching Supervision (APECS) This globally bestselling book provides a comprehensive guide to clinical supervision practice for helping professionals from various disciplines. As there has been a strong growth in research on supervision practice over the last 10 years, this new edition has been thoroughly updated to include insights from contemporary research and literature, providing supervisors with an accessible and well-informed grounding for their work. Highlights of this new edition include: •Deeper consideration of the challenges of working as helping professionals in current times •Updated guidance for supervisors and supervisees on best practice and making the most of supervision •An updated chapter on the Seven-eyed model •A revised chapter on running supervisor training programmes, including guidance for training supervisors in using the Seven-eyed model •A new chapter on development of supervision across professions, including invited contributions from practitioners from 11 different disciplines •A new chapter offering a comprehensive review of research on supervision, focusing on application to practice

Issues and Ethics in the Helping Professions May 18 2021 This book provides practitioners with the basis for discovering their own guidelines within the broad limits of professional codes of ethics and divergent theoretical positions. To help you make these wise, informed decisions, it provides you with coverage of the latest standards and research, a discussion of a range of diverse views on the central issues of the profession, and case vignettes and open questions that invite you to develop an internalized, personal perspective.
