Real Magic Dec 01 2019 The chief scientist at the Institute of Noetic Sciences (IONS) turns a critical eye toward such practices as telepathy, clairvoyance, precognition and psychokinesis. Are such powers really possible? Science says yes. According to noted scientist and bestselling author of *The Conscious Universe*, Dean Radin, magic is a natural aspect of reality, and each of us can tap into this power with diligent practice. But wait, aren't things like ESP and telepathy just wishful thinking and flights of the imagination? Not according to the author, who worked on the US government's top secret psychic espionage program known as Stargate. Radin has spent the last forty years conducting controlled experiments that demonstrate that thoughts are things, that we can sense others' emotions and intentions from a distance, that intuition is more powerful than we thought, and that we can tap into the power of intention (think *The Secret*, only on a more realistic and scientific level). These dormant powers can help us to lead more interesting and fulfilling lives. Beginning with a brief history of magic over the centuries (what was called magic two thousand years ago is turning out to be scientific fact today), a review of the scientific evidence for magic, a series of simple but effective magical techniques (the key is mental focus, something elite athletes know a lot about), Radin then offers a vision of a scientifically-informed magic and explains why magic will play a key role in frontiers of science.

Historically motivated gender ambiguity in Nathaniel Hawthorne's "The Scarlet Letter" May 30 2022 Seminar paper from the year 2017 in the subject American Studies - Literature, grade: 1,0, University of Rostock (Anglistik/ Amerikanistik), course: Early American Literature, US History and Its Aftermath, language: English, abstract: Breaking with the tradition of examining "The Scarlet Letter" by Nathaniel Hawthorne for traces of (proto-)feminism, the paper approaches the idea of gender in analyzing the interplay of the time periods underlying the literary work - the 19th century as the time of writing and Puritan times as the setting of the plot. In the 200 years between the two moments, ideas of gender have changed with commencing ideas of female empowerment in Hawthorne's time. Looking at the shifting understanding of gender, the construction of femininity and masculinity is analyzed with a focus on the two protagonists - Hester Prynne and Arthur Dimmesdale. Overall, the gender relations between the two main characters change into opposite directions. Thus, Hawthorne's writing destabilizes conventional Puritan ideas of pre-ascribed spheres and gender roles. It has become an

academic tradition over the past decades to scrutinize historical literary pieces for traces of feminism. Nathaniel Hawthorne's "The Scarlet Letter" has been a prime object of interest for several scholars in this pursuit. The story of Hester Prynne who is outlawed by Puritan society after having committed adultery represents an early work to have a protagonist who breaks with the law of her time. This might be the reason why in an earlier tradition the novel has been read with Arthur Dimmesdale, the young reverend and Hester's lover, as the central figure. Approaches involving feminism and gender studies challenged this reading. Their focus however primarily seems to be the tracing of feminist attitudes in Hawthorne's writing. In this approach the historical perspective of the literary work is often read from a contemporary angle creating a hybrid reading that involves three time frames, namely the Puritan time of the plot, the 19th century setting of the novel's writing and the contemporary moment of the novel's reading.

The American Adam Jan 26 2022 Intellectual history is viewed in this book as a series of "great conversations"—dramatic dialogues in which a culture's spokesmen wrestle with the leading questions of their times. In nineteenth-century America the great argument centered about De Crèvecoeur's "new man," the American, an innocent Adam in a bright new world dissociating himself from the historic past. Mr. Lewis reveals this vital preoccupation as a pervasive, transforming ingredient of the American mind, illuminating history and theology as well as art, shaping the consciousness of lesser thinkers as fully as it shaped the giants of the age. He traces the Adamic theme in the writings of Emerson, Thoreau, Hawthorne, Melville, Henry James, and others, and in an Epilogue he exposes their continuing spirit in the works of F. Scott Fitzgerald, William Faulkner, Ralph Ellison, J. D. Salinger, and Saul Bellow.

The Cambridge Introduction to the Novel Sep 29 2019 Beginning its life as the sensational entertainment of the eighteenth century, the novel has become the major literary genre of modern times. Drawing on hundreds of examples of famous novels from all over the world, Marina MacKay explores the essential aspects of the novel and its history: where novels came from

and why we read them; how we think about their styles and techniques, their people, plots, places, and politics. Between the main chapters are longer readings of individual works, from Don Quixote to *Midnight's Children*. A glossary of key terms and a guide to further reading are included, making this an ideal accompaniment to introductory courses on the novel.

[The Threads of The Scarlet Letter](#) Dec 25 2021 *The Threads of The Scarlet Letter* offers new discoveries regarding the origins of Hawthorne's masterpiece, as well as critical interpretations based on these discoveries. Relying on a blend of close reading, biographical analysis, and archival research, this book demonstrates anew the power of traditional scholarship. *The Threads of The Scarlet Letter* illuminates Hawthorne's transformation of Poe's celebrated tale *The Tell-Tale Heart* and Lowell's long-neglected poem *A Legend of Brittany* and, identifying the hitherto-unknown author of the seminal narrative *The Salem Belle*, investigates Hawthorne's brilliant borrowing from that novel as well. The present volume argues that Hawthorne repeatedly attenuated his sources, but also allowed sufficient detail to permit their recognition. Furthermore, this volume elaborates Hawthorne's reworking of formal traditions in *The Scarlet Letter*--traditions that importantly clarify the meaning of the whole. *The Scarlet Letter* is shown to be a complex rendering of man's fall and redemption, and a triumphant assertion of literary vocation. *The Threads of The Scarlet Letter* includes a useful bibliographical overview of the history of the study of the origins of Hawthorne's greatest work.

[The Office of Scarlet Letter](#) Jun 30 2022 "The *Scarlet Letter* has proved our most enduring classic," writes Sacvan Bercovitch, "because it is the liberal example par excellence of art as ideological mimesis. To understand the office of the A is to see how culture empowers symbolic form, including forms of dissent, and how symbols participate in the dynamics of culture, including the dynamics of constraint." With an approach that both reflects and contests developments in literary studies, Bercovitch explores these connections from two perspectives: first, he examines a historical reading of the novel's unities; and then, a rhetorical analysis of key mid-nineteenth-century issues, at home and abroad. In order to highlight the relation between rhetoric and history, he focuses on the point at which the scarlet letter does its office at last, the moment when Hester decides to come home to America. In *The Office of "The Scarlet Letter,"* Bercovitch argues that the process by which the United States usurped "America" for itself, symbolically, is also the process by which liberalism established political and economic dominance. In the course of his study, he offers sustained discussions of Hawthorne's irony and ambiguity, of aesthetic and social strategies of cohesion, and of the conundrums of liberal dissent. Winner of the Modern Language Association's James Russell Lowe prize, *The Office of "The Scarlet Letter"* provides a theoretical redefinition of the function of symbolism in culture and an exemplary literary-ideological reading of a major text.

A second investigates the tension between Hawthorne's Puritan setting and his Romantic language, suggesting a complex relationship among author, narrator, characters, and story. A third considers the novel's pervasive metaphor of sexuality. The final essay locates the work in the genre of 'the novel of adultery'.

A Successful Novel Must Be in Want of a Sequel Jun 26 2019 What happened after Mr. Darcy married Elizabeth Bennet in *Pride and Prejudice*? Great novels often leave behind great questions, and sequels seek to answer them. This critical analysis offers fresh insights into the sequels to seven literary classics, including Jane Austen's *Sense and Sensibility*, the Bronte sisters' *Jane Eyre*, Louisa May Alcott's *Little Women*, and Daphne du Maurier's *Rebecca*.

The Scarlet Professor Apr 04 2020 During his thirty-seven years at Smith College, Newton Arvin published groundbreaking studies of Hawthorne, Whitman, Melville, and Longfellow that stand today as models of scholarship and psychological acuity. He cultivated friendships with the likes of Edmund Wilson and Lillian Hellman and became mentor to Truman Capote. Handbook of the American Novel of the Nineteenth Century Jul 28 2019 This handbook offers students and researchers a compact introduction to the nineteenth-century American novel in the light of current debates, theoretical concepts, and critical methodologies. The volume turns to the nineteenth century as a formative era in American literary history, a time that saw both the rise of the novel as a genre, and the emergence of an independent, confident American culture. A broad range of concise essays by European and American scholars demonstrates how some of America ' s most well-known and influential novels responded to and participated in the radical transformations that characterized American culture between the early republic and the age of imperial expansion. Part I consists of 7 systematic essays on key historical and critical frameworks including debates about race and citizenship, transnationalism, environmentalism and print culture, as well as sentimentalism, romance and the gothic, realism and naturalism. Part II provides 22 essays on individual novels, each combining an introduction to relevant cultural contexts with a fresh close reading and the discussion of critical perspectives shaped by literary and cultural theory.

Breeding Contempt Aug 09 2020 From the Publisher: Most closely associated today with the Nazis and World War II atrocities, eugenics is sometimes described as a government-orchestrated breeding program, other times as a pseudo-science, and often as the first step leading to genocide. Less frequently is it depicted as a movement having links to America-a nation that has historically prided itself for its scientific rationality. But eugenics does have a history in the United States-a history that is largely the story of biologist Charles Davenport. Davenport, who led the Eugenics Records Office in the late nineteenth century, provided physicians, social scientists, and lawmakers with the scientific data and authority that enabled them to coercively sterilize men and women who were thought to be socially deviant, unfit to pass on their genes, and unable to raise healthy children. Moreover, Mark A. Largent shows how even in modern times, remnants of eugenics philosophies persist in this country as certain public figures advocate a brand of birth control-such as progesterone shots for male criminals-that are only steps away from the castrations that were once performed.
