The Choice Jan 02 2020 This book contains a summary of The Bible The Quran and Science 2014 of Dr. Maurice Bucaille, The biography of prophet Muhammad (pbuh), An Islamic prayer book according to Quran and Sunnah, and last but not least is that this book also contains "The Qur'an & Modern Science: Compatible or Incompatible? 2014" by Dr. Zakir Naik and Mr. Faisal Fahim. This is an A to Z book on Islam, Quran, Bible, Torah, Science And it also includes the Islamic prayer book with a biography of the prophet. This book seeks to spiritually unite by highlighting similarities in the texts. It sheds new light and dispels many preconceived ideas in separating what belongs to Revelation from what is the product of error or human interpretation. (The Qur'an & Modern Science: Compatible or Incompatible?) Ever since the dawn of human life on this planet, Man has always sought to understand Nature, his own place in the scheme of Creation and the purpose of Life itself. In this quest for Truth, spanning many centuries and diverse civilizations, organized religion has shaped human life and determined to a large extent, the course of history. While some religions have been based on books, claimed by their adherents to be divinely inspired, others have relied solely on human experience. Al-Qur'an, the main source of the Islamic faith, is a book believed by Muslims, to be of completely Divine origin. Muslims also believe that it contains Divine guidance for all humankind. Since the message of the Qur'an is believed to be for all times, it should be relevant to every age. Does the Qur'an pass this test? In this booklet, I intend to give an objective analysis of the Muslim belief regarding the Divine origin of the Qur'an, in the light of established scientific discoveries. There was a time, in the history of world civilization, when 'miracles', or what was perceived to be a miracle, took precedence over human reason and logic. But how do we define the term 'miracle'? A miracle is anything that takes place out of the normal course of life and for which humankind has no explanation. However, we must be careful before we accept something as a miracle. An article in 'The Times of India', Mumbai, in 1993 reported that 'a saint' by the name 'Baba Pilot' claimed to have stayed continuously submerged under water in a tank for three consecutive days and nights. However, when reporters wanted to examine the base of the tank of water where he claimed to have performed this 'miraculous' feat, he refused to let them do so. He argued by asking as to how one could examine the womb of a mother that gives birth to a child. The 'Baba' was hiding something. It as a gimmick simply to gain publicity. THIS BOOK HAS MUCH MORE ADDED INFORMATION ON THE NEW DISCOVERIES OF SCIENTIFIC INFORMATION FOUND IN THE HOLY QURAN & THIS INFORMATION IS ARRANGED AND ORGANIZED BY AUTHOR MR. FAISAL FAHIM. THE LATEST INFORMATIONS ARE ALL ADDED IN 2014 REVEIWD BY FAISAL. Allah (swt) Says : "Invite to the Way of your Lord (i.e. Islam) with wisdom (i.e. with the Divine Revelation and the Qur'an) and fair preaching, and argue with them in a way that is better. Truly, your Lord knows best who has gone astray from His Path, and He is the Best Aware of those who are guided." [Quran 16:125] From author: To the people who loved reading & purchasing my book. One Nation Under God May 06 2020 The provocative and authoritative history of the origins of Christian America in the New Deal era We're often told that the United States is, was, and always has been a Christian nation. But in One Nation Under God, historian Kevin M. Kruse reveals that the belief that America is fundamentally and formally Christian originated in the 1930s. To fight the "slavery" of FDR's New Deal, businessmen enlisted religious activists in a campaign for "freedom under God" that culminated in the election of their ally Dwight Eisenhower in 1952. The new president revolutionized the role of religion in American politics. He inaugurated new traditions like the National Prayer Breakfast, as Congress added the phrase "under God" to the Pledge of Allegiance and made "In God We Trust" the country's first official motto. Church membership soon soared to an all-time high of 69 percent. Americans across the religious and political spectrum agreed that their country was "one nation under God." Provocative and authoritative, One Nation Under God reveals how an unholy alliance of money, religion, and politics created a false origin story that continues to define and divide American politics to this day.

Wisdom and Wonder Apr 16 2021

Miracles Jun 18 2021 Despite the dominance of scientific explanation in the modern world, at the beginning of the twenty-first century faith in miracles remains strong, particularly in resurgent forms of traditional religion. In *Miracles*, David L. Weddle examines how five religious traditions—Hinduism, Judaism, Buddhism, Christianity, and Islam—understand miracles, considering how they express popular enthusiasm for wondrous tales, how they provoke official regulation because of their potential to disrupt authority, and how they are denied by critics within each tradition who regard belief in miracles as an illusory distraction from moral responsibility. In dynamic and accessible prose, Weddle shows us what miracles are, what they mean, and why, despite overwhelming scientific evidence, they are still significant today: belief in miracles sustains the hope that, if there is a reality that surpasses our ordinary lives, it is capable of exercising—from time to time—creative, liberating, enlightening, and healing power in our world.

I wonder about Prophet Sep 02 2022 There are lots of answers for the questions of kids about our dear Prophet Muhammed(SAW). This book is not just for Muslim kids, it is for everyone who wants to learn and know about Prophet Muhammed.. Those are the questions that you will find fabulous answers about the prophet of Islam: Why are Prophets so important for humanity? Why was our Prophet born in Mecca and not anywhere else? How did our Prophet live before he became a Prophet? Did he worship? If he did, whom did he worship? Who gave our Prophet his name? Does he have other names? What does salawat mean? Why do we need to say salawat when our Prophet's name is mentioned? Why didn't our Prophet know how to read and write? Why did our Prophet sleep, get hungry, thirsty and tired like ordinary people? Did our Prophet perform miracles like other Prophets? How did our Prophet treat animals, did he like animals? Did our Prophet like children?

God or No God Mar 16 2021 It was narrated that a Bedouin was traveling on his camel when his camel suddenly dropped dead. He descended from the camel's back and started circling it while meditatively saying: Why don't you get up? Why don't you come back to life? Here are your limbs! They are perfectly complete and your body is sound! What is the matter with you? What used to keep you going? What worked in you to make you alive? What caused you to die? What stopped you now from moving? Then he left his camel in amazement, wondering what had happened to it. There are traces of past and present creations everywhere — are they meaningless or living signs of a Creator God?

I Wonder About the Qur'an Jun 30 2022 Have you ever wondered why the Qur'an is in Arabic, why it was revealed over 23 years or how people can be so sure it has never been changed? What the Qur'an Meant Dec 13 2020 America's leading religious scholar and public intellectual introduces lay readers to the Qur'an with a measured, powerful reading of the ancient text Garry Wills has spent a lifetime thinking and writing about Christianity. In *What the Qur'an Meant*, Wills invites readers to join him as he embarks on a timely and necessary reconsideration of the Qur'an, leading us through perplexing passages with insight and erudition. What does the Qur'an actually say about veiling women? Does it justify religious war? There was a time when ordinary Americans did not have to know much about Islam. That is no longer the case. We blundered into the longest war in our history without knowing basic facts about the Islamic civilization with which we were dealing. We are constantly fed false information about Islam—claims that it is essentially a religion of violence, that its sacred book is a handbook for terrorists. There is no way to assess these claims unless we have at least some knowledge of the Qur'an. In this book Wills, as a non-Muslim with an open mind, reads the Qur'an with sympathy but with rigor, trying to discover why other non-Muslims—such as Pope Francis—find it an inspiring book, worthy to guide people down through the centuries. There are many traditions that add to and distort and blunt the actual words of the text. What Wills does resembles the work of art restorers who clean away accumulated layers of dust to find the original meaning. He compares the Qur'an with other sacred books, the Old Testament and the New Testament, to show many parallels between them. There are also parallel difficulties of interpretation, which call for patient exploration—and which offer some thrills of discovery. *What the Qur'an Meant* is the opening of a conversation on one of the world's most practiced religions.

Take Hold of the Faith You Long For Aug 28 2019 On the outside, many women are well-put-together Christians with trendy shoes, beautiful children, and wide, white smiles. On the inside, those same women are little girls cowering at the edge of the playground, hoping no one notices them, yet still wishing they could join in. They've professed faith and know the right things, but they struggle to truly take hold of the "life more abundant" that Jesus offers. Instead they settle for a life that's less than what God has promised them. In this liberating book, Sharon Jaynes reveals the most common reasons women get stuck with a mediocre, mundane faith. Then she shows women how to break free and move forward, leaving behind the feelings of inferiority, inadequacy, and insecurity that are holding them hostage. The God Delusion. 10th Anniversary Edition Sep 29 2019 The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.

The Case for God Jan 26 2022 From the bestselling author of A History of God and The Great Transformation comes a balanced, nuanced understanding of the role religion plays in human life and the trajectory of faith in modern times. Why has God become incredible? Why is it that atheists and theists alike now think and speak about God in a way that veers so profoundly from the thinking of our ancestors? Moving from the Paleolithic Age to the present, Karen Armstrong details the lengths to which humankind has gone to experience a sacred reality that it called God, Brahman, Nirvana, Allah, or Dao. She examines the diminished impulse toward religion in our own time when a significant number of people either want nothing to do with God or question the efficacy of faith. With her trademark depth of knowledge and profound insight, Armstrong elucidates how the changing world has necessarily altered the importance of religion at both societal and individual levels. And she makes a powerful, convincing argument for structuring a faith that speaks to the needs of our dangerously polarized age.

Islam Jan 14 2021 One of the largest and fastest-growing religions, Islam is currently practiced by approximately one-fifth of the world's population. Unlike most religions that only consist of acts of worship, rituals, and a set of beliefs, it also offers a just socio-politico-economic system, which is especially important today as we continue to make significant material and scientific progress. However, although it presents real solutions to problems faced by the whole of mankind, factors such as worldwide media propaganda and the current condition of the Muslim community have seriously distorted the public image of Islam. Adeel Zeerak hopes that his book *Islam: A Superior System of Life* will help change all that. He says that after careful study, even those with non-Muslim unprejudiced minds will appreciate the beauty of his religion's teachings. To prove the superiority of Islamic system over other systems, he provides concrete data obtained from authentic sources and refrains from using boastful or exaggerative language. Chapters in *Islam: A Superior System of Life* include: • This is Islam • Characteristics of the Islamic System • Spiritual System • Social System • Economic System • Political System • The Prophet, peace be upon him, the Message, and the Ummah "Despite commendable progress in the field of science and technology, this world is full of evil, exploitation, and injustice," says Zeerak, who believes any effort to find a solution to our problems continually fails because we choose to ignore the light of Divine Guidance. We all know what happened to prophet Noah's people when they rejected this guidance, but we, thankfully, still exist in this world to follow our Lord and accept Islam. Written for the Muslim and non-Muslim, *Islam: A Superior System of Life* is for readers interested in Islam, the prophet Muhammad (PBUH), the Islamic view of women, the concept of Khilafat, Islamic finance, Islamic spirituality, and Islamic history. The author promises that our obedience to Allah, subhanahu wa-ta'ala, will result in endless favors and blessings both in this world and the hereafter.

Sacred Sense Jul 20 2021 All too often Scripture is read only to find answers to life's perplexing questions, to prove a theological point, or to formulate doctrine. But William Brown argues that if read properly, what the Bible does most fundamentally is arouse a sacred sense of life-transforming wonder. In this book Brown helps readers develop an orientation toward the biblical text that embraces wonder. He explores reading strategies and offers fresh readings of seventeen Old and New Testament passages, identifying what he finds most central and evocative in the unfolding biblical drama. The Bible invites its readers to linger in wide-eyed wonder, Brown says -- and his *Sacred Sense* shows readers how to do just that.

Tripping with Allah May 18 2021 If *Tripping with Allah* is a road book, it's a road book in the tradition of *2001: A Space Odyssey*, rather than *On the Road*. Amazonian shamanism meets Christianity meets West African religion meets Islam in this work of reflection and inward adventure. Knight, the "Hunter S. Thompson of Islamic literature" seeks reconciliation between his Muslim identity and his drinking of ayahuasca, a psychedelic tea that has been used in the Amazon for centuries. His experience becomes an opportunity to investigate complex issues of drugs, religion, and modernity. Though essential for readers interested in Islam or the growing popularity of ayahuasca, this book is truly about neither Islam nor ayahuasca. *Tripping with Allah* provides an accessible look into the construction of religion, the often artificial borders dividing these constructions, and the ways in which religion might change in an increasingly globalized world. Finally, *Tripping with Allah* not only explores Islam and drugs, but also Knight's own process of creativity and discovery.
