Smoking Food Apr 02 2020 Everything you need to know about home smoking! In Smoking Food, Chris Dubbs and Dave Heberle assure us that smoking is an art, not a science, and they fearlessly reveal that art's essentials—and how simple they can be. They explain how to choose the best fuels (you can use corncobs!), how to build smokers from old refrigerators and cardboard boxes, and, of course, how to smoke everything from turkeys to turtles. Their advice is as ingenious and cost-conscious as any given by Alton Brown. Aware of the needs and wants of the modern cook, they include low-sodium preparations, alternatives to preservatives like sodium nitrite, and thoughts on safely handling meat. Recipes include: Slow-smoked salmon Hot-smoked shrimp Pastrami Country-style bacon Wine-marinated rabbit Firecan turkey Summer sausage Smoked cheese Smoked nuts Jerky Chowders Stuffing Vegetables And more! With more than one hundred recipes and tips for making brines, marinades, cheeses, appetizers, soups, and main dishes, Smoking Food is an invaluable resource for the home smoker.

Real Estate Mar 02 2020 Learn How You Can Get Into Real Estate Investing. This book contains proven steps and strategies on how you can get into real estate investing, and grow your wealth. This book that I have written is designed specifically for beginners who have no prior knowledge about the real estate market. While you may not be aware of it, people are making a fortune on the real estate market and they are doing so because of the opportunities offered. No longer is banking investment thought of as being the best bet. Interest rates are falling and people are beginning to cotton onto the fact that if they want the best return for their money, they need to look elsewhere. At the time of writing this book, I have established myself sufficiently to be able to give up work. However, once you get onto the real estate ladder, it's unlikely that you will want to get off it. It's addictive and it's fun, but it's also a lot of hard work and you need to do your homework. Don't

expect money for nothing because real estate investment is hard work. What drew me to it was the fact that I had money accumulated in the property I bought for my family. This equity or value of the home seemed to be sitting doing nothing and when I looked into the potential, I was surprised at just how far that money could go in securing my future. Remember that all the information that you are about to read is going to be useless, if you don't take action. You can be a real estate expert, but you will not make any money if you don't implement what you learn. Taking action is what leads to profits and a chance at the financial freedom you dream about, and not taking action is the number one reason for failure.
